## **1** Framework for the Presentation & Preparation of Financial Statements

#### **Question 1**

What are the qualitative characteristics of the financial statements which improve the usefulness of the information furnished therein? (4 Marks, May, 2007 and November, 2008)(PCC)

#### Answer

The qualitative characteristics are attributes that improve the usefulness of information provided in financial statements. The framework suggests that the financial statements should observe and maintain the following qualitative characteristics as far as possible within limits of reasonable cost/ benefit.

- Understandability: The financial statements should present information in a manner as to be readily understandable by the users with reasonable knowledge of business and economic activities. It is not right to think that more disclosures are always better. A mass of irrelevant information creates confusion and can be even more harmful than nondisclosure. No relevant information can be however withheld on the grounds of complexity.
- 2. Relevance: The financial statements should contain relevant information only. Information, which is likely to influence the economic decisions by the users, is said to be relevant. Such information may help the users to evaluate past, present or future events or may help in confirming or correcting past evaluations. The relevance of a piece of information should be judged by its materiality. A piece of information is said to be material if its omission or misstatement can influence economic decisions of a user.
- 3. *Reliability*: To be useful, the information must be reliable; that is to say, they must be free from material error and bias. The information provided are not likely to be reliable unless:
  - (a) Transactions and events reported are faithfully represented.
  - (b) Transactions and events are reported in terms of their substance and economic reality not merely on the basis of their legal form. This principle is called the principle of 'substance over form'.
  - (c) The reporting of transactions and events are neutral, i.e. free from bias.
  - (d) Prudence is exercised in reporting uncertain outcome of transactions or events.

#### 1.2 Advanced Accounting

- 4. Comparability: Comparison of financial statements is one of the most frequently used and most effective tools of financial analysis. The financial statements should permit both inter-firm and intra-firm comparison. One essential requirement of comparability is disclosure of financial effect of change in accounting policies.
- 5. *True and Fair View*: Financial statements are required to show a true and fair view of the performance, financial position and cash flows of an enterprise. The framework does not deal directly with this concept of true and fair view, yet the application of the principal qualitative characteristics and of appropriate accounting standards normally results in financial statements portraying true and fair view of information about an enterprise.

#### **Question 2**

"One of the characteristics of financial statements is neutrality"- Do you agree with this statement? (2 Marks, May, 2008) (PCC)

#### Answer

Yes, one of the characteristics of financial statements is neutrality. To be reliable, the information contained in financial statement must be neutral, that is free from bias. Financial Statements are not neutral if by the selection or presentation of information, they influence the making of a decision or judgment in order to achieve a pre-determined result or outcome. Financial statements are said to depict the true and fair view of the business of the organization by virtue of neutrality.

#### **Question 3**

What are the qualitative characteristics that improve the usefulness of information provided in the financial statements? (4 Marks, November, 2011and May, 2013) (IPCC)

#### Answer

The following qualitative characteristics will help in improving the usefulness of the information provided in the financial statements:

- 1. **Understandability**: Information in financial statements should be presented in a manner that the users with reasonable knowledge of business and economic activities and accounting, may readily understand it. All relevant information should be given therein.
- Relevance: The relevance of a piece of information should be judged by its materiality i.e. whether its omission or misstatement can influence economic decisions of users or not. No relevant information should be withheld on the grounds of complexity.
- 3. **Reliability**: The information are said to be reliable when transactions and events reported are represented faithfully and also when they are reported in terms of their substance and economic reality. Prudence concept is also used whenever required.
- 4. **Comparability**: The financial statements should permit both inter-firm and intra firm comparison. One essential feature or requirement of comparability is disclosure of financial effect of change in accounting policies.
- 5. **True and Fair view:** Financial statements are required to show a true and fair view of the performance, financial position and cash flows of an enterprise.

#### **Question 1**

(a) On 20.4.2003 JLC Ltd. obtained a loan from the Bank for ₹ 50 lakhs to be utilised as under:

|                               | ₹        |
|-------------------------------|----------|
| Construction of a shed        | 20 lakhs |
| Purchase of machinery         | 15 lakhs |
| Working capital               | 10 lakhs |
| Advance for purchase of truck | 5 lakhs  |

In March, 2004 construction of shed was completed and machinery installed. Delivery of truck was not received. Total interest charged by the bank for the year ending 31.3.2004 was  $\gtrless 9$  lakhs. Show the treatment of interest under AS 16.

(b) A limited company created a provision for bad and doubtful debts at 2.5% on debtors in preparing the financial statements for the year 2003-2004.

Subsequently on a review of the credit period allowed and financial capacity of the customers, the company decided to increase the provision to 8% on debtors as on 31.3.2004. The accounts were not approved by the Board of Directors till the date of decision. While applying the relevant accounting standard can this revision be considered as an extraordinary item or prior period item?

(4 Marks each, November 2004)(PE-II)

#### Answer

(a) As per AS 16, borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset should be capitalized. A qualifying asset is an asset that necessarily takes a substantial period of time (usually 12 months or more) to get ready for its intended use or sale. If an asset is ready for its intended use or sale at the time of its acquisition then it is not treated as a qualifying asst for the purposes of AS 16.

(b) The preparation of financial statements involve making estimates which are based on the circumstances existing at the time when the financial statements are prepared. It may be necessary to revise an estimate in a subsequent period if there is a change in the circumstances on which the estimate was based. Revision of an estimate, by its nature, does not bring the adjustment within the definitions of a prior period item or an extraordinary item [para 21 of AS 5 (Revised) on Net Profit or Loss for the Period, Prior Period Items and Changes in Accounting Policies].

In the given case, a limited company created 2.5% provision for doubtful debts for the year 2003-2004. Subsequently in 2004 they revised the estimates based on the changed circumstances and wants to create 8% provision. As per AS-5 (Revised), this change in estimate is neither a prior period item nor an extraordinary item.

However, as per para 27 of AS 5 (Revised), a change in accounting estimate which has material effect in the current period, should be disclosed and quantified. Any change in the accounting estimate which is expected to have a material effect in later periods should also be disclosed.

#### **Question 2**

(a) A major fire has damaged assets in a factory of X Co. Ltd. on 8.4.2004, 8 days after the year end closing of accounts. The loss is estimated to be ₹ 16 crores (after estimating the recoverable amount of ₹24 crores from the Insurance Company).

If the company had no insurance cover, the loss due to fire would be  $\mathcal{F}40$  crores.

*Explain, how the loss should be treated in the Final accounts of the year ended* 31.3.2004.

(b) A Company had deferred research and development cost of ₹150 lakhs. Sales expected in the subsequent years are as under:

| Years | Sales<br>(₹in lakhs) |
|-------|----------------------|
| 1     | 400                  |
| 11    | 300                  |
| 111   | 200                  |
| IV    | 100                  |

You are asked to suggest how should Research and Development cost be charged to Profit and Loss account.

If at the end of the III year, it is felt that no further benefit will accrue in the IV year, how the unamortised expenditure would be dealt with in the accounts of the Company?

(c) In April, 2004 a Limited Company issued 1,20,000 equity shares of ₹100 each. ₹50 per share was called up on that date which was paid by all shareholders. The remaining ₹50 was called up on 1.9.2004. All shareholders paid the sum in September, 2004, except one shareholder having 24,000 shares. The net profit for the year ended 31.3.2005 is ₹2,64,000 after dividend on preference shares and dividend distribution tax of ₹64,000.

Compute basic EPS for the year ended 31.3.2005 as per Accounting Standard 20.

(d) On 1.4.2001 ABC Ltd. received Government grant of ₹ 300 lakhs for acquisition of a machinery costing ₹ 1,500 lakhs. The grant was credited to the cost of the asset. The life of the machinery is 5 years. The machinery is depreciated at 20% on WDV basis. The Company had to refund the grant in May 2004 due to non-fulfillment of certain conditions.

How you would deal with the refund of grant in the books of ABC Ltd.?

 $(4 \times 4 = 16 \text{ Marks}, \text{May}, 2005)$  (PE-II)

#### Answer

(a) The present event does not relate to conditions existing at the balance sheet date. Hence, no specific adjustment is required in the financial statements for the year ending on 31.3.2004. But if the event occurring after balance sheet date gives an indication that

#### 2.4 Advanced Accounting

the enterprise may cease to be a going concern, then the assets and liabilities are required to be adjusted for the financial year ended 31st March, 2004. AS 4 (Revised) requires disclosure in respect of events occurring after the balance sheet date representing unusual changes affecting the existence or substratum of the enterprise after the date of the Balance Sheet. In the present event, the loss of assets in a factory can be considered to be an event affecting the substratum of the enterprise. Hence, an appropriate disclosure should be made in the report of the approving authority.

(b) (i) Based on sales, research and development cost to be allocated as follows:

| Year | Research and Development cost allocation |  |  |
|------|--|--|--|
|      | (₹in lakhs)                              |  |  |
| 1    | $\frac{400}{1,000} \times 150 = 60$      |  |  |
| 11   | $\frac{300}{1,000}$ × 150 = 45           |  |  |
| 111  | $\frac{200}{1,000} \times 150 = 30$      |  |  |
| IV   | $\frac{100}{1,000}$ × 150 = 15           |  |  |

(ii) If at the end of the III year, the circumstances do not justify that further benefit will accrue in IV year, then the company has to charge the unamortised amount i.e. remaining ₹ 45 lakhs [150 – (60 + 45)] as an expense immediately.

**Note:** As per para 41 of AS 26 on Intangible Assets, expenditure on research (or on the research phase of an internal project) should be recognized as an expense when it is incurred. It has been assumed in the above solution that the entire cost of ₹ 150 lakhs is development cost. Therefore, the expenditure has been deferred to the subsequent years on the basis of presumption that the company can demonstrate all the conditions specified in para 44 of AS 26. An intangible asset should be derecognised when no future economic benefits are expected from its use according to para 87 of the standard. Hence the remaining unamortised amount of ₹ 45,00,000 has been written off as an expense at the end of third year.

#### Working Note:

Calculation of weighted average number of equity shares

Sharos

|                     | Number of shares | Nominal value of shares | Amount paid |
|---------------------|------------------|-------------------------|-------------|
| 1st April, 2004     | 1,20,000         | 100                     | 50          |
| 1st September, 2004 | 96,000           | 100                     | 100         |
|                     | 24,000           | 100                     | 50          |

As per para 19 of AS 20 on Earnings per share, Partly paid equity shares are treated as a fraction of equity share to the extent that they were entitled to participate in dividends relative to a fully paid equity share during the reporting period. Assuming that the partly paid shares are entitled to participate in the dividends to the extent of amount paid, weighted average number of shares will be calculated as:

$$1,20,000 \times \frac{1}{2} \times \frac{5}{12} = 25,000$$

$$96,000 \times \frac{7}{12} = 56,000$$

$$24,000 \times \frac{1}{2} \times \frac{7}{12} = 7,000$$

$$\underline{88,000} \text{ shares}$$

(d) According to para 21 of AS 12 on Accounting for Government Grants, the amount refundable in respect of a grant related to a specific fixed asset should be recorded by increasing the book value of the asset or by reducing the capital reserve or deferred income balance, as appropriate, by the amount refundable. In the first alternative, i.e., where the book value is increased, depreciation on the revised book value should be provided prospectively over the residual useful life of the asset. The accounting treatment in both the alternatives can be given as follows:

| Alternative | 1: |
|-------------|----|
|-------------|----|

|                  |   | ₹(in lakhs)   |

|                 | Revised book value   | <u>914.40</u> |

Depreciation @ 20% on the revised book value amounting ₹ 914.40 lakhs is to be provided prospectively over the residual useful life of the asset i.e. years ended 31st March, 2005 and 31st March, 2006.

#### Alternative 2:

ABC Ltd. can also debit the refund amount of  $\gtrless$  300 lakhs in capital reserve of the company.

#### **Question 3**

(a) ABC Ltd. could not recover ₹10 lakhs from a debtor. The company is aware that the debtor is in great financial difficulty. The accounts of the company were finalized for the year ended 31.3.2005 by making a provision @ 20% of the amount due from the said debtor.

The debtor became bankrupt in April, 2005 and nothing is recoverable from him.

Do you advise the company to provide for the entire loss of  $\gtrless$  10 lakhs in the books of account for the year ended 31st March, 2005?

(b) X Co. Ltd. signed an agreement with its employees union for revision of wages in June, 2004. The wage revision is with retrospective effect from 1.4.2000. The arrear wages upto 31.3.2004 amounts to ₹ 80 lakhs. Arrear wages for the period from 1.4.2004 to 30.06.2004 (being the date of agreement) amounts to ₹ 7 lakhs.

Decide whether a separate disclosure of arrear wages is required.

(c) An intangible asset appears in Balance Sheet of A Co. Ltd. at ₹16 lakhs as on 31.3.2004. The asset was acquired for ₹40 lakhs in April, 1991. The Company has been amortising the asset value on straight line basis. The policy is to amortise for 20 years.

Do you advise the Company to amortise the entire asset value in the books of the company as on 31.3.2004?

(d) How refund of revenue grant received from the Government is disclosed in the Financial Statements? (4 × 4 = 16 Marks, November 2005) (PE-II)

#### Answer

(a) As per AS 4 'Contingencies and Events occurring after the Balance Sheet Date', adjustments to assets and liabilities are required for events occurring after the balance sheet date that provide additional information materially affecting the determination of the amounts relating to conditions existing at the Balance Sheet date.

In the given case, bankruptcy of the debtor in April, 2005 and consequent non-recovery of debt is an event occurring after the balance sheet date which materially affects the

determination of profits for the year ended 31.3.2005. Therefore, the company should be advised to provide for the entire amount of ₹ 10 lakhs according to para 8 of AS 4.

(b) It is given that revision of wages took place in June, 2004 with retrospective effect from 1.4.2000. The arrear wages payable for the period from 1.4.2000 to 30.6.2004 cannot be taken as an error or omission in the preparation of financial statements and hence this expenditure cannot be taken as a prior period item.

Additional wages liability of ₹ 87 lakhs (from 1.4.2000 to 30.6.2004) should be included in current year's wages.

It may be mentioned that additional wages is an expense arising from the ordinary activities of the company. Although abnormal in amount, such an expense does not qualify as an extraordinary item. However, as per Para 12 of AS 5 (Revised),' Net Profit or loss for the Period, Prior Period Items and Changes in the Accounting Policies', when items of income and expense within profit or loss from ordinary activities are of such size, nature or incidence that their disclosure is relevant to explain the performance of the enterprise for the period, the nature and amount of such items should be disclosed separately.

However, wages payable for the current year (from 1.4.2004 to 30.6.2004) amounting ₹ 7 lakhs is not a prior period item, hence need not be disclosed separately. This may be shown as current year wages.

- (c) AS 26 'Intangible Assets', came into effect for accounting periods commencing on or after 1.4.2003 and is mandatory in nature. Para 67 of the standard provides that if there is persuasive evidence that the life of the intangible asset is 20 years, then no adjustment is required at 1.4.2003. However, para 63 of the standard states that if it cannot be demonstrated that the life of the intangible asset is greater than 10 years, then AS 26 would require the asset to be amortised over not more than 10 years. Since, in the given case, the amortisation period determined by applying para 63 has already expired as on 1.4.2003, the carrying amount of ₹ 16 lakhs would be required to be eliminated with a corresponding adjustment to the opening balance of revenue reserves as on 1.4.2003.
- (d) The amount refundable in respect of a grant related to revenue should be applied first against any unamortised deferred credit remaining in respect of the grant. To the extent that the amount refundable exceeds any such deferred credit, or where no deferred credit exists, the amount should be charged to profit and loss statement. The amount refundable in respect of a grant related to a specific fixed asset should be recorded by increasing the book value of the asset or by reducing the capital reserve or the deferred income balance, as appropriate, by the amount refundable. In the first alternative, i.e., where the book value of the asset is increased, depreciation on the revised book value should be provided prospectively over the residual useful life of the asset.

#### 2.8 Advanced Accounting

#### **Question 4**

AB Ltd. launched a project for producing product X in October, 2004. The Company incurred ₹ 20 lakhs towards Research and Development expenses upto 31<sup>st</sup> March, 2006. Due to prevailing market conditions, the Management came to conclusion that the product cannot be manufactured and sold in the market for the next 10 years. The Management hence wants to defer the expenditure write off to future years. Advise the Company as per the applicable Accounting Standard. (4 Marks, May 2006) (PE-II)

#### Answer

As per Para 41 of AS 26 "Intangible Assets", expenditure on research should be recognized as an expense when it is incurred. An intangible asset arising from development (or from the development phase of an internal project) should be recognized if, and only if, an enterprise can demonstrate all of the conditions specified in para 44 of the standard. An intangible asset (arising from development) should be derecognised when no future economic benefits are expected from its use according to para 87 of the standard. Therefore, the manager cannot defer the expenditure write off to future years.

Hence, the expenses amounting ₹ 20 lakhs incurred on the research and development project has to be written off in the current year ending 31<sup>st</sup> March, 2006.

#### **Question 5**

- (a) What are the costs that are to be included in Research and Development costs as per AS 8.
- (b) What are the conditions that are to be satisfied for 'Amalgamation in the nature of Merger'?
- (c) X Ltd. entered into an agreement to sell its immovable property included in the Balance Sheet at ₹ 10 lacs to another company for ₹ 15 lacs. The agreement to sell was concluded on 28<sup>th</sup> February, 2006 and the sale deed was registered on 1<sup>st</sup> May, 2006. Comment with reference to AS 4. (4 Marks each, November 2006) (PE-II)

#### Answer

(a) According to paras 41 and 43 of AS 26<sup>\*</sup>, "No intangible asset arising from research (or from the research phase of an internal project) should be recognized in the research phase. Expenditure on research (or on the research phase of an internal project) should be recognized as an expense when it is incurred.

Examples of research costs are:

• Costs of activities aimed at obtaining new knowledge;

<sup>\*</sup> AS 8 stands withdrawn w.e.f. 1st April, 2003 i.e. the date from which AS 26 'Intangible Assets' becomes mandatory. Therefore, the above answer has been given as per AS 26.

- Costs of the search for, evaluation and final selection of, applications of research findings or other knowledge;
- Costs of the search for alternatives for materials, devices, products, processes, systems or services; and
- Costs of the activities involved in formulation, design, evaluation and final selection of possible alternatives for new or improved materials, devices, products, processes systems or services."

According to paras 45 and 46 of AS 26, "In the development phase of a project, an enterprise can, in some instances, identify an intangible asset and demonstrate that future economic benefits from the asset are probable. This is because the development phase of a project is further advanced than the research phase.

Examples of development activities/costs are:

- Costs of the design, construction and testing of pre-production or pre-use prototypes and models;
- Costs of the design of tools, jigs, moulds and dies involving new technology;
- Costs of the design, construction ad operation of a pilot plant that is not of a scale economically feasible for commercial production; and
- Costs of the design, construction and testing of a chosen alternative for new or improved materials, devices, products, processes, systems or services."
- (b) As per AS 14 "Accounting for Amalgamations", amalgamation in the nature of merger is an amalgamation which satisfies all the following conditions:
  - (i) All the assets and liabilities of the transferor company become, after amalgamation, the assets and liabilities of the transferee company.
  - (ii) Shareholders holding not less than 90% of the face value of the equity shares of the transferor company (other than the equity shares already held therein, immediately before the amalgamation, by the transferee company or its subsidiaries or their nominees) become equity shareholders of the transferee company by virtue of amalgamation.
  - (iii) The consideration for the amalgamation receivable by those equity shareholders of the transferor company who agree to become equity shareholders of the transferee company is discharged by the transferee company wholly by the issue of equity shares in the transferee company, except that cash may be paid in respect of any fractional shares.
  - (iv) The business of the transferor company is intended to be carried on, after the amalgamation, by the transferee company.
  - (v) No adjustment is intended to be made to the book values of the assets and liabilities of the transferor company when they are incorporated in the financial statements of the transferee company except to ensure uniformity of accounting policies.

#### 2.10 Advanced Accounting

(c) According to para 13 of AS 4 "Contingences and Events occurring after the Balance Sheet Date", assets and liabilities should be adjusted for events occurring after the balance sheet date that provide additional evidence to assist the estimation of amounts relating to conditions existing at the balance sheet date.

In this case the sale of immovable property was carried out before the closure of the books of Accounts. This is clearly an event occurring after the balance sheet date. Agreement to sell was effected before the balance sheet date and the registration was done after the balance sheet date. So the adjustment for the sale of immovable property is necessary in the books of account for the year ended 31<sup>st</sup> March, 2006.

#### **Question 6**

In X Co. Ltd., theft of cash of  $\gtrless$  5 lakhs by the cashier in January, 2007 was detected only in May, 2007. The accounts of the company were not yet approved by the Board of Directors of the company. Whether the theft of cash has to be adjusted in the accounts of the company for the year ended 31.3.2007. Decide. (2 Marks, May, 2007) (PCC)

#### Answer

As per paragraph 13 of AS 4 (revised) 'Contingencies and Events occurring after the Balance Sheet Date', an event occurring after the balance sheet date may require adjustment to the reported values of assets, liabilities, expenses or incomes. If a fraud of the accounting period is detected after the balance sheet date but before approval of the financial statements, it is necessary to recognize the loss amounting₹ 5,00,000 and adjust the accounts of the company for the year ended 31<sup>st</sup> March, 2007.

#### **Question 7**

How Government grant relating to specific fixed asset is treated in the books as per AS-12?

(4 Marks, May, 2007) (PCC)

#### Answer

In accordance with AS 12, government grants related to specific fixed assets should be presented in the balance sheet by showing the grant as a deduction from the gross value of the assets concerned in arriving at their book value. Where the grant related to a specific fixed asset equals the whole, or virtually the whole, of the cost of the asset, the asset should be shown in the balance sheet at a nominal value. Alternatively, government grants related to depreciable fixed assets may be treated as deferred income which should be recognized in the profit and loss statement on a systematic and rational basis over the useful life of the asset, i.e., such grants should be allocated to income over the periods and in the proportions in which depreciation on those assets is charged. Grants related to non-depreciable assets are credited to capital reserve under this method, as there is usually no charge to income in respect of such assets. However, if a grant related to a non-depreciable asset requires the fulfillment of certain obligations, the grant is credited to income. The deferred income is

suitably disclosed in the balance sheet pending its apportionment to profit and loss account.

#### **Question 8**

From the following information relating to Y Ltd. Calculate Earnings Per Share (EPS):

|   | ₹in crores |
|---|------------|
| Profit before V.R.S. payments but after depreciation          | 75.00      |
| Depreciation  | 10.00      |
| VRS payments  | 32.10      |
| Provision for taxation  | 10.00      |
| Fringe benefit tax  | 5.00       |
| Paid up share capital (shares of <i>₹</i> 10 each fully paid) | 93.00      |

(4 Marks, November, 2007) (PCC)

#### Answer

|  |             | ₹in crores   |
|--|-------------|--------------|
| Profit after depreciation but before VRS Payment |             | 75.00        |
| Less: Depreciation – No. adjustment required     | -           |              |
| VRS payments                                     | 32.10       |              |
| Provision for taxation                           | 10.00       |              |
| Fringe benefit tax                               | <u>5.00</u> | <u>47.10</u> |
| Net Profit                                       |             | <u>27.90</u> |
| No. of shares                                    |             | 9.30 crores  |

No. of shares

Netprofit EPS = No.of shares 27.90 = 9.30 = ₹3 per share.

#### **Question 9**

What is meant by accounting estimate? Give two examples for accounting estimate.

(2 Marks, November, 2007) (PCC)

#### Answer

As a result of the uncertainties in business activities, many financial statement items cannot be measured with precision but can only be estimated. These are called accounting estimates. Therefore, the management makes various estimates and assumptions of assets, liabilities,

#### 2.12 Advanced Accounting

incomes and expenses as on the date of preparation of financial statements. This process of estimation involves judgments based on the latest information available.

Examples of estimation in some fields are:

- (i) Estimation of useful life of depreciable assets.
- (ii) Estimation of provision to be made for bad and doubtful debts.

#### **Question 10**

- (i) How would you record a non-monetary grant received from the Government as per AS 12?
- (ii) An industry borrowed ₹ 40,00,000 for purchase of machinery on 1.6.2007. Interest on loan is 9% per annum. The machinery was put to use from 1.1.2008. Pass journal entry for the year ended 31.3.2008 to record the borrowing cost of loan as per AS 16.

(2 Marks each, May, 2008) (PCC)

#### Answer

(i) According to para 7.1 of AS 12 'Accounting for Government Grants', Government grants may take the form of non-monetary assets such as land or other resources, given at concessional rates. In these circumstances, it is usual to account for such assets at their acquisition cost. Non-monetary grants given free of cost are recorded at a nominal value.

#### Question 11

When can an item qualify to be a prior period item as per AS 5? (4 Marks, May, 2008) (PCC)

#### Answer

According to para 16 of AS 5 on 'Net Profit or Loss for the Period, Prior Period Items and Changes in Accounting Policies', prior period items refers to those income or expenses, which arise in the current period as a result of errors or omissions in the preparation of financial statements of one or more prior periods. The term does not include other adjustments necessitated by circumstances, which though related to prior periods, are determined in the current period e.g., arrears payable to workers in current period as a result of revision of wages with retrospective effect.

#### **Question 12**

The company finds that the stock sheets of 31.3.2007 did not include two pages containing details of inventory worth  $\gtrless$  20 lakhs. State, how will you deal with this matter in the accounts of A Ltd., for the year ended 31<sup>st</sup> March, 2008 with reference to AS 5.

(2 Marks, November, 2008) (PCC)

#### Answer

As per para 16 of AS 5 on 'Net Profit or Loss for the Period, Prior Period Items and Changes in Accounting Policies', omission of two pages containing details of inventory worth ₹20 lakhs in 31.3.2007 is a prior period item. As per para 19 of the standard, prior period items are normally included in the determination of net profit or loss for the current period. Accordingly, ₹20 lakhs must be added to opening stock of 1.4.2007. An alternative approach is to show such items in the statement of profit and loss after determination of current net profit or loss. In either case, the objective is to indicate the effect of such items on the current profit or loss.

| Date of actual payment 7.7.2007             | ₹43                  |

Ascertain the loss/gain for financial years 2006-07 and 2007-08, also give their treatment as per AS 11. (4 Marks, November, 2008) (PCC)

#### Answer

#### 2.14 Advanced Accounting

According to the standard, at the balance sheet date all monetary transactions should be reported using the closing rate. Thus, creditor of US \$10,000 on 31.3.2007 will be reported at ₹4,40,000 (i.e.  $10,000 \times ₹ 44$ ) and exchange profit of ₹10,000 (i.e. 4,50,000 - 4,40,000) should be credited to Profit and Loss account in the year 2006-07.

On 7.7.2007, trade payables of \$10,000 is paid at the rate of ₹ 43. As per AS 11, exchange difference on settlement of the account should also be transferred to Profit and Loss account. Therefore, ₹10,000 (i.e. 4,40,000 – 4,30,000) will be credited to Profit and Loss account in the year 2007-08.

#### **Question 14**

Enumerate two points which the financial statements should disclose in respect of Borrowing Costs as per AS 16. (2 Marks, June, 2009) (PCC)

#### Answer

As per AS 16, the Financial Statements should disclose the following:

- (a) The accounting policy adopted for borrowing costs and
- (b) The amount of borrowing costs capitalized during the period.

#### **Question 15**

- (a) Explain the provisions of AS -5 regarding accounting treatment of prior period items.
- (b) From the following information relating to X Ltd., calculate Diluted Earnings Per Share as per AS 20:

| Net Profit for the current year                     | ₹2,00,00,000 |
|---|--------------|
| Number of equity shares outstanding                 | 40,00,000    |
| Basic earnings per share                            | ₹5.00        |
| Number of 11% convertible debentures of ₹100 each   | 50,000       |
| Each debenture is convertible into 8 equity shares. |              |
| Interest expense for the current year               | ₹ 5,50,000   |
| Tax saving relating to interest expense (30%)       | ₹1,65,000    |

(4 Marks each, June, 2009) (PCC)

#### Answer

(a) As per AS 5, prior period items are income or expenses, which arise, in the current period as a result of errors or omission in the preparation of financial statements of one or more prior periods. The term does not include other adjustments necessitated by circumstances, which though related to prior periods, are determined in the current period. Example: arrears payable to workers in current period as a result of retrospective revision of wages.

The nature and amount of prior period items should be separately disclosed in the

statement of profit and loss in manner that their impact on current profit or loss can be perceived.

As per para 19 of AS 5, prior period items are normally included in determination of net profit or loss for the current profit, they can be added (or deducted as the case may be) from the current profit. An alternative approach is to show such items in the statement of profit or loss after determination of current net profit or loss. In either case, the objective is to indicate the effect of such items on the current profit or loss.

(b) Adjusted Net profit for the current year

= 2,00,00,000+5,50,000 - 1,65,000 = ₹ 2,03,85,000

Number of equity shares resulting from conversion of debentures

 $= 50,000 \times 8 = 4,00,000$  equity shares

Total number of equity shares resulting from conversion of debentures

= 40,00,000 + 4,00,000 = 44,00,000 shares

Diluted Earnings per share =  $\frac{₹2,03,85,000}{44,00,000}$  = ₹4.63 (Approximately)

#### Question 16

- (i) An earthquake destroyed a major warehouse of ACO Ltd. on 20.5.2009. The accounting year of the company ended on 31.3.2009. The accounts were approved on 30.6.2009. The loss from earthquake is estimated at ₹ 30 lakhs. State with reasons, whether the loss due to earthquake is an adjusting or non-adjusting event and how the fact of loss is to be disclosed by the company?
- (ii) ABC Ltd. developed know-how by incurring expenditure of ₹ 20 lakhs, The know-how was used by the company from 1.4.2002. The useful life of the asset is 10 years from the year of commencement of its use. The company has not amortised the asset till 31.3.2009. Pass Journal entry to give effect to the value of know-how as per Accounting Standard-26 for the year ended 31.3.2009. (2 Marks each, November, 2009) (PCC)

#### Answer

(i) Para 8.3 of AS 4 "Contingencies and Events Occuring after the Balance Sheet Date", states that adjustments to assets and liabilities are not appropriate for events occurring after the balance sheet date, if such events do not relate to conditions existing at the balance sheet date. The destruction of warehouse due to earthquake did not exist on the balance sheet date i.e. 31.3.2009. Therefore, loss occurred due to earthquake is not to be recognised in the financial year 2008-2009.

However, according to para 8.6 of the standard, unusual changes affecting the existence or substratum of the enterprise after the balance sheet date may indicate a need to consider the use of fundamental accounting assumption of going concern in the

#### 2.16 Advanced Accounting

preparation of the financial statements. As per the information given in the question, the earthquake has caused major destruction; therefore fundamental accounting assumption of going concern is called upon. Hence, the fact of earthquake together with an estimated loss of ₹ 30 lakhs should be disclosed in the Report of the Directors for the financial year 2008-2009.

#### **Question 17**

(i) Goods worth ₹ 5,00,000 were destroyed due to flood in September, 2006. A claim was lodged with insurance company. But no entry was passed in the books for insurance claim in the financial year 2006-07.

In March, 2008, the claim was passed and the company received a payment of  $\mathcal{Z}$  3,50,000 against the claim. Explain the treatment of such receipt in final accounts for the year ended 31<sup>st</sup> March, 2008.

- Briefly indicate the items which are included in the expressions "Borrowing Cost" as per AS 16.
- (iii) Sterling Ltd. purchased a plant for US \$ 20,000 on 31<sup>st</sup> December, 2007 payable after 4 months. The company entered into a forward contract for 4 months @ ₹ 48.85 per dollar. On 31<sup>st</sup> December, 2007, the exchange rate was ₹ 47.50 per dollar.

How will you recognize the profit or loss on forward contract in the books of Sterling Limited for the year ended 31<sup>st</sup> March, 2008.

(iv) A company created a provision of ₹75,000 for staff welfare while preparing the financial statements for the year 2007-08. On 31<sup>st</sup> March, in a meeting with staff welfare association, it was decided to increase the amount of provision for staff welfare to ₹1,00,000. The accounts were approved by Board of Directors on 15<sup>th</sup> April, 2008.

*Explain the treatment of such revision in financial statements for the year ended 31st March, 2008.* 

<sup>\*</sup> As per para 63 of AS 26 "Intangible Assets", there is a rebuttable presumption that the useful life of an intangible asset will not exceed ten years from the date when the asset is available for use. Amortisation should commence when the asset is available for use.

(v) A company entered into an agreement to sell its immovable property to another company for 35 lakhs. The property was shown in the Balance Sheet at ₹7 lakhs. The agreement to sell was concluded on 15<sup>th</sup> February, 2008 and sale deed was registered on 30<sup>th</sup> April, 2008. The financial statements for the year 2007-08 were approved by the board on 12<sup>th</sup> May,2008.

You are required to state, how this transaction would be dealt with in the financial statements for the year ended 31<sup>st</sup> March, 2008.

(vi) X Ltd. received a revenue grant of ₹ 10 crores during 2006-07 from Government for welfare activities to be carried on by the company for its employees. The grant prescribed the conditions for utilization.

However during the year 2008-09, it was found that the prescribed conditions were not fulfilled and the grant should be refunded to the Government.

State how this matter will have to be dealt with in the financial statements of X Ltd. for the year ended 2008-09. (2 Marks each, November, 2009 & May, 2011) (IPCC)

#### Answer

(i) As per the provisions, of AS 5 "Net Profit or Loss for the Period, Prior Period Items and Changes in Accounting Policies", prior period items are income or expenses, which arise in the current period as a result of error or omissions in the preparation of financial statements of one or more prior periods. Further, the nature and amount of prior period items should be separately disclosed in the statement of profit and loss.

In the given situation, it is clearly a case of error in preparation of financial statements for the financial year 2006-07. Hence claim received in the financial year 2007-08 is a prior period item and should be separately disclosed in the statement of profit and loss for the year ended 31<sup>st</sup> March, 2008.

- (ii) Borrowing costs are interest and other costs incurred by an enterprise in connection with the borrowing of funds. Borrowing cost may include:
  - (a) Interest and commitment charges on bank borrowings and other short term and long term borrowings.
  - (b) Amortisation of discounts or premiums relating to borrowings.
  - (c) Amortisation of ancillary costs incurred in connection with the arrangement of borrowings.
  - (d) Finance charges in respect of assets required under finance leases or under other similar arrangements; and
  - (e) Exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs.

#### (iii) Calculation of profit or loss to be recognised in the books of Sterling Limited

| Forward contract rate  | ₹ 48.85   |
|--|-----------|
| Less: Spot rate  | (₹ 47.50) |
| Loss   | ₹ 1.35    |
| Forward Contract Amount  | \$20,000  |
| Total loss on entering into forward contract = (\$20,000 × ₹ 1.35)                     | ₹ 27,000  |
| Contract period  | 4 months  |
| Loss for the period 1 <sup>st</sup> January, 2008 to 31 <sup>st</sup> March, 2008 i.e. |           |
| 3 months falling in the year 2007-2008 will be ₹27,000 $\times \frac{3}{4}$ =          | ₹ 20,250  |

Balance loss of ₹6,750 (i.e. ₹ 27,000 – ₹ 20,250) for the month of April, 2008 will be recognised in the financial year 2008-2009.

(iv) As per AS 5 "Net Profit or Loss for the Period, Prior Period Items and Changes in Accounting Policies", the change in amount of staff welfare provision amounting ₹ 25,000 is neither a prior period item nor an extraordinary item. It is a change in estimate, which has been occurred in the year 2007-08.

As per the provisions of the standard, normally, all items of income and expense which are recognised in a period are included in the determination of the net profit or loss for the period. This includes extraordinary items and the effects of changes in accounting estimates. However, the effect of such change in accounting estimate should be classified using the same classification in the statement of profit and loss, as was used previously, for the estimate.

(v) According to para 13 of AS 4 "Contingencies and Events Occurring after the Balance Sheet Date", assets and liabilities should be adjusted for events occurring after the balance sheet date that provide additional evidence to assist the estimation of amounts relating to conditions existing at the balance sheet date.

In the given case, sale of immovable property was carried out before the closure of the books of accounts. This is clearly an event occurring after the balance sheet date but agreement to sell was effected on 15<sup>th</sup> February 2009 i.e. before the balance sheet date. Registration of the sale deed on 30<sup>th</sup> April, 2009, simply provides additional information relating to the conditions existing at the balance sheet date. Therefore, adjustment to assets for sale of immovable property is necessary in the financial statements for the year ended 31<sup>st</sup> March, 2009.

(vi) As per para 11 of AS 12 "Government Grants", a grant that became refundable should be treated as an extra-ordinary item as per Accounting Standard 5 "Net Profit or Loss for the Period, Prior Period Items and Changes in Accounting Policies". The amount refundable in respect of a government grant related to revenue, is applied first against any unamortised deferred credit remaining in respect of the grant. To the extent that the

amount refundable exceeds any such deferred credit, or where no deferred credit exists, the amount is charged immediately to profit and loss statement. Therefore, refund of grant of ₹ 10 crores should be shown in the profit and loss account of the company as an extra-ordinary item during the financial year 2008-09.

#### **Question 18**

(i) Axe Limited began construction of a new plant on 1<sup>st</sup> April, 2008 and obtained a special loan of ₹ 4,00,000 to finance the construction of the plant. The rate of interest on loan was 10%.

The expenditure that were made on the project of plant were as follows:

|                               | ₹         |
|-------------------------------|-----------|
| 1 <sup>st</sup> April, 2008   | 5,00,000  |
| 1 <sup>st</sup> August, 2008  | 12,00,000 |
| 1 <sup>st</sup> January, 2009 | 2,00,000  |

The company's other outstanding non-specific loan was ₹23,00,000 at an interest rate of 12%.

The construction of the plant completed on 31<sup>st</sup> March, 2009. You are required to:

- (a) Calculate the amount of interest to be capitalized as per the provisions of AS 16 "Borrowing Cost".
- (b) Pass a journal entry for capitalizing the cost and the borrowing cost in respect of the plant.
- (ii) Compute Basic Earnings per share from the following information:

| Date                         | Particulars                          | No. of shares |
|------------------------------|--------------------------------------|---------------|
| 1 <sup>st</sup> April, 2008  | Balance at the beginning of the year | 1,500         |
| 1 <sup>st</sup> August, 2008 | Issue of shares for cash             | 600           |
| 31 <sup>st</sup> March, 2009 | Buy back of shares                   | 500           |

Net profit for the year ended 31<sup>st</sup> March, 2009 was ₹2,75,000.

#### **Question 19**

- (i) Santosh Ltd. has received a grant of ₹ 8 crores from the Government for setting up a factory in a backward area. Out of this grant, the company distributed ₹ 2 crores as dividend. Also, Santosh Ltd. received land free of cost from the State Government but it has not recorded it at all in the books as no money has been spent. In the light of AS 12 examine, whether the treatment of both the grants is correct.
- (ii) A Company follows April to March as its financial year. The Company recognizes cheques dated 31<sup>st</sup> March or before, received from customers after balance sheet date, but before approval of financial statement by debiting 'Cheques in hand account' and crediting 'Debtors account'. The 'cheques in hand' is shown in the Balance Sheet as an item of cash and cash equivalents. All cheques in hand are presented to bank in the month of April and are also realised in the same month in normal course after deposit in the bank. State with reasons, whether the collection of cheques bearing date 31<sup>st</sup> March or before, but received after Balance Sheet date is an adjusting event and how this fact is to be disclosed by the company?
- (iii) Closing stock for the year ending on 31.3.2010 is ₹ 50,000 which includes stock damaged in a fire in 2008-09. On 31.3.2009, the estimated net realisable value of the damaged stock was ₹ 12,000. The revised estimate of net realisable value of damaged goods amounting ₹ 4,000 has been included in closing stock of ₹ 50,000 as on 31.3.2010.

Find the value of closing stock to be shown in Profit and Loss account for the<br/>year 2009-10.(2 Marks each, May, 2010) (IPCC)

#### Answer

(i) As per AS 12 'Accounting for Government Grants', when government grant is received for a specific purpose, it should be utilised for the same. So the grant received for setting up a factory is not available for distribution of dividend.

In the second case, even if the company has not spent money for the acquisition of land, land should be recorded in the books of accounts at a nominal value. The treatment of both the grants is incorrect as per AS 12.

(ii) Even if the cheques bear the date 31<sup>st</sup> March or before, the cheques received after 31<sup>st</sup> March do not represent any condition existing on the balance sheet date i.e. 31<sup>st</sup> March. Thus, the collection of cheques after balance sheet date is not an adjusting event. Cheques that are received after the balance sheet date should be accounted for in the period in which they are received even though the same may be dated 31<sup>st</sup> March

#### 2.22 Advanced Accounting

or before as per AS 4 "Contingencies and Events Occurring after the Balance Sheet Date". Moreover, the collection of cheques after balance sheet date does not represent any material change affecting financial position of the enterprise, so no disclosure in the Director's Report is necessary.

(iii) The fall in estimated net realisable value of damaged stock ₹ 8,000 is the effect of change in accounting estimate. As per AS 5 'Net Profit or Loss for the Period, Prior Period Items and Changes in Accounting Policies', the effect of a change in accounting estimate should be classified using the same classification in the statement of profit and loss as was used previously for the estimate.

Thus, the value of closing stock for the year 2009-10 will be as follows:

|   | ₹              |
|---|----------------|
| Closing Stock (including damaged goods) | 50,000         |
| Less: Revised value of damaged goods    | <u>(4,000)</u> |
| Closing stock (excluding damaged goods) | <u>46,000</u>  |

#### **Question 20**

B&P Ltd. availed a lease from N&L Ltd. The conditions of the lease terms are as under:

- (i) Lease period is 3 years, in the beginning of the year 2009, for equipment costing ₹10,00,000 and has an expected useful life of 5 years.
- (ii) The Fair market value is also ₹10,00,000.
- (iii) The property reverts back to the lessor on termination of the lease.
- (iv) The unguaranteed residual value is estimated at ₹1,00,000 at the end of the year 2011.
- (v) 3 equal annual payments are made at the end of each year.

Consider IRR = 10%.

The present value of  $\gtrless$ 1 due at the end of  $3^{rd}$  year at 10% rate of interest is  $\gtrless$ 0.7513.

The present value of annuity of  $\mathcal{F}1$  due at the end of  $3^{rd}$  year at 10% IRR is  $\mathcal{F}2.4868$ .

State whether the lease constitute finance lease and also calculate unearned Finance income.

(4 Marks, May, 2010) (IPCC)

#### Answer

#### (a) Computation of annual lease payment to the lessor

|  | ₹         |
|--|-----------|
| Cost of equipment                                      | 10,00,000 |
| Unguaranteed residual value                            | 1,00,000  |
| Present value of residual value after third year @ 10% |           |

| (₹1,00,000 × 0.7513)  | 75,130         |
|---|----------------|
| Fair value to be recovered from lease paymen (₹10,00,000 – ₹75,130) | ts<br>9,24,870 |
| Present value of annuity for three years is 2.4868                  |                |
| Annual lease payment = ₹ 9,24,870/ 2.4868                           | 3,71,911.70    |

The present value of lease payment i.e., ₹ 9,24,870 equals 92.48% of the fair market value i.e., 10,00,000. As the present value of minimum lease payments substantially covers the initial fair value of the leased asset and lease term (i.e. 3 years) covers the major part of the life of asset (i.e. 5 years). Therefore, it constitutes a finance lease.

#### (b) Computation of Unearned Finance Income

|   | ₹                  |
|---|--------------------|
| Total lease payments (₹3,71,911.70 x 3)   | 11,15,735          |
| Add: Unguaranteed residual value  | 1,00,000           |
| Gross investment in the lease   | 1,215,735          |
| Less: Present value of investment (lease payments and residual value) (₹75,130 + ₹9,24,870) | <u>(10,00,000)</u> |
| Unearned finance income   | 2,15,735           |

#### **Question 21**

While preparing its final accounts for the year ended  $31^{st}$  March 2010, a company made a provision for bad debts @ 4% of its total debtors (as per trend follows from the previous years). In the first week of March 2010, a debtor for ₹ 3,00,000 had suffered heavy loss due to an earthquake; the loss was not covered by any insurance policy. In April, 2010 the debtor became a bankrupt. Can the company provide for the full loss arising out of insolvency of the debtor in the final accounts for the year ended  $31^{st}$  March, 2010.

(5 Marks, November, 2010 & November, 2011) (IPCC)

#### Answer

As per para 8 of AS 4 'Contingencies and Events Occurring After the Balance Sheet Date', adjustment to assets and liabilities are required for events occurring after the balance sheet date that provide additional information materially affecting the determination of the amounts relating to conditions existing at the Balance Sheet date.

A debtor for ₹ 3,00,000 suffered heavy loss due to earthquake in the first week of March, 2010 and he became bankrupt in April, 2010 (after the balance sheet date). The loss was also not covered by any insurance policy. Accordingly, full provision for bad debts amounting ₹ 3,00,000 should be made, to cover the loss arising due to the insolvency of a debtor, in the

final accounts for the year ended 31st March 2010.

#### 2.26 Advanced Accounting

(c) As per para 41 of AS 26 "Intangible Assets", expenditure on research should be recognised as an expense when it is incurred. An intangible asset arising from development (or from the development phase of an internal project) should be recognized if and only if, an enterprise can demonstrate all of the conditions specified in para 44 of the standard. An intangible asset (arising from development) should be derecognised when no future economic benefits are expected from its use according to the provisions of AS 26. Therefore, the management can not defer the expenditure write off to future years and the company is required to expense the entire amount of ₹ 30 lakhs in the Profit and Loss account of the year ended 31<sup>st</sup> March, 2010.

#### **Question 24**

Lessee Ltd. took a machine on lease from Lessor Ltd., the fair value being ₹7,00,000. The economic life of machine as well as the lease term is 3 years. At the end of each year Lessee Ltd. pays ₹3,00,000. The Lessee has guaranteed a residual value of ₹22,000 on expiry of the lease to the Lessor. However Lessor Ltd., estimates that the residual value of the machinery will be only ₹15,000. The implicit rate of return is 15% p.a. and present value factors at 15% are 0.869, 0.756 and 0.657 at the end of first, second and third years respectively. Calculate the value of machinery to be considered by Lessee Ltd. and the finance charges in each year. (8 Marks, May, 2011) (IPCC)

#### Answer

As per para 11 of AS 19 "Leases", the lessee should recognize the lease as an asset and a liability at the inception of a finance lease. Such recognision should be at an amount equal to

<sup>\*</sup> The number of equity shares to be used in calculating basic earnings per share for periods prior to the rights issue is the number of equity shares outstanding prior to the issue, multiplied by the adjustment factor. The adjustment factor has been calculated in Working Note 2.

the fair value of the leased asset at the inception of lease. However, if the fair value of the leased asset exceeds the present value of minimum lease payment from the standpoint of the lessee, the amount recorded as an asset and liability should be the present value of minimum lease payments from the standpoint of the lessee.

#### Value of machinery

In the given case, fair value of the machinery is ₹ 7,00,000 and the net present value of minimum lease payments is ₹ 6,99,054<sup>\*</sup>. As the present value of the machine is less than the fair value of the machine, the machine will be recorded at value of ₹ 6,99,054.

#### **Question 25**

A company signed an agreement with the employees' union on 01-09-2010 for revision of wages with retrospective effect from 01-04-2009. This would cost the company an additional liability of ₹ 10 lakhs per annum. Is a disclosure necessary for the amount paid in 2010-11.

(4 Marks, May, 2011) (IPCC)

#### Answer

It is given that revision of wages took place on 1<sup>st</sup> September, 2010 with retrospective effect from 1.4.2009. The arrear of wages payable for the period 01.4.2009 to 31.3.2010, cannot be taken as an error or omission in the preparation of financial statement and hence this expenditure cannot be taken as a prior period item. Additional wages liability of ₹ 20 lakhs should be included in current years' wages. It may be mentioned that additional wages is an expense arising from the ordinary activities of the company. Although abnormal in amount, such an expense does not qualify as an extra- ordinary item. However, as per AS 5 (Revised), "Net Profit or Loss for the Period, Prior Period Items and Changes in Accounting Policies",

\* Present value of minimum lease payments:

Annual lease rental x PV factor + Present value of guaranteed residual value

= ₹3,00,000 x (0.869 + 0.756 + 0.657) + ₹22,000 x (0.657)

= ₹6,84,600 + ₹14,454 = ₹6,99,054.

\*\* The difference between this figure and guaranteed residual value (₹ 22,000) is due to approximation in computing the interest rate implicit in the lease.

when items of income and expense within profit or loss from ordinary activities are of such size, nature or incidence that their disclosure is relevant to explain the performance of the enterprise for the period, the nature and amount of such items should be disclosed separately. Therefore, necessary disclosure should be made for the additional liability amounting ₹ 20 lakhs.

## **Question 26**

(a) On 25<sup>th</sup> April, 2010, Neel Limited obtained a loan from the bank for ₹ 70 lakhs to be utilized as under:

|                               | ₹in lakhs |
|-------------------------------|-----------|
| Construction of factory shed  | 28        |

| Working capital               | 14        |
| Advance for purchase of truck | 7         |

In March, 2011, construction of shed was completed and machinery installed. Delivery of truck was not received. Total interest charged by the bank for the year ending 31<sup>st</sup> March, 2011 was ₹12 lakhs. Show the treatment of interest under Accounting Standard 16.

(b) An equipment having expected useful life of 5 years, is leased for 3 years. Both the cost and the fair value of the equipment are ₹ 6,00,000. The amount will be paid in 3 equal instalments and at the termination of lease, lessor will get back the equipment. The unguaranteed residual value at the end of 3<sup>rd</sup> year is ₹ 60,000. The IRR of the investment is 10%. The present value of annuity factor of ₹ 1 due at the end of 3<sup>rd</sup> year at 10% IRR is 2.4868. The present value of ₹ 1 due at the end of 3<sup>rd</sup> year at 10% rate of interest is 0.7513. State with reason whether the lease constitutes finance lease and also compute the unearned finance income. (5 Marks, November, 2011) (IPCC)

## Treatment of Interest as per AS 16

#### Note:

- 1. It is assumed that construction of factory shed was completed at the end of March, 2011. Accordingly, interest for the full year has been capitalized.
- 2. It is assumed that machinery was ready to use at the time of purchase only and on this basis it has been treated as non-qualifying asset.

#### (b) (i) Determination of Nature of Lease

It is assumed that the fair value of the leased equipments is equal to the present value of minimum lease payments.

Present value of residual value at the end of 3<sup>rd</sup> year = ₹ 60,000 x 0.7513

|                                 | = ₹ 45,078                              |
|---------------------------------|---|
| Present value of lease payments | = ₹ 6,00,000 – ₹ 45,078<br>= ₹ 5,54,922 |

The percentage of present value of lease payments to fair value of the equipment is  $(₹ 5,54,922 / ₹ 6,00,000) \times 100 = 92.487\%.$ 

Since, it substantially covers the major portion of the lease payments, the lease constitutes a finance lease.

#### (ii) Calculation of Unearned Finance Income

Annual lease payment = ₹ 5,54,922 / 2.4868 =₹ 2,23,147 (approx)

Gross investment in the lease = Total minimum lease payment + unguaranteed residual value

= (₹ 2,23,147 × 3) + ₹ 60,000 = ₹ 6,69,441 + ₹ 60,000 = ₹ 7,29,441

Unearned finance income = Gross investment - Present value of minimum lease payments and unguaranteed residual value

= ₹ 7,29,441 – ₹ 6,00,000 = ₹ 1,29,441

#### **Question 27**

(a) Sunshine Company Limited imported raw materials worth US Dollars 9,000 on 25<sup>th</sup> February, 2011, when the exchange rate was ₹ 44 per US Dollar. The transaction

was recorded in the books at the above mentioned rate. The payment for the transaction was made on  $10^{th}$  April, 2011, when the exchange rate was  $\gtrless 48$  per US Dollar. At the year end  $31^{st}$  March, 2011, the rate of exchange was  $\gtrless 49$  per US Dollar.

The Chief Accountant of the company passed an entry on  $31^{st}$  March, 2011 adjusting the cost of raw material consumed for the difference between  $\checkmark$  48 and  $\checkmark$  44 per US Dollar. Discuss whether this treatment is justified as per the provisions of AS-11 (Revised).

(b) Explain the treatment of refund of Government Grants as per Accounting Standard 12.

(4 Marks each, November, 2011) (IPCC)

#### Answer

(a) As per para 9 of AS 11, 'The Effects of Changes in Foreign Exchange Rates', initial recognition of a foreign currency transaction is done in the reporting currency by applying the exchange rate at the date of the transaction. Accordingly, on 25<sup>th</sup> February 2011, the raw material purchased and its creditors will be recorded at US dollar 9,000 × ₹ 44 = ₹ 3,96,000.

Also, as per para 11 of the standard, on balance sheet date such transaction is reported at closing rate of exchange, hence it will be valued at the closing rate i.e.  $\gtrless$  49 per US dollar (USD 9,000 x  $\gtrless$  49 =  $\gtrless$  4,41,000) at 31<sup>st</sup> March, 2011, irrespective of the payment made for the same subsequently at lower rate in the next financial year.

The difference of ₹ 5 (49 – 44) per US dollar i.e. ₹ 45,000 (USD 9,000 x ₹ 5) will be shown as an exchange loss in the profit and loss account for the year ended  $31^{st}$  March, 2011 and will not be adjusted against the cost of raw materials.

In the subsequent year on settlement date, the company would recognize or provide in the Profit and Loss account an exchange gain of  $\gtrless$  1 per US dollar, i.e. the difference from balance sheet date to the date of settlement between  $\gtrless$  49 and  $\gtrless$  48 per US dollar i.e.  $\gtrless$  9,000. Hence, the accounting treatment adopted by the Chief Accountant of the company is incorrect i.e. it is not in accordance with the provisions of AS 11.

- (b) Para 11 of AS 12, "Accounting for Government Grants", explains treatment of government grants in following situations:
  - (i) When government grant is related to revenue
    - (a) <u>When deferred credit account has a balance</u>: The amount of government grant refundable will be adjusted against unamortized deferred credit balance remaining in respect of the grant. To the extent that the amount refundable exceeds any such deferred credit the amount is immediately charged to profit and loss account.
    - (b) <u>Where no deferred credit account balance exists:</u> The amount of government grant refundable will be charged to profit and Loss account.

### (ii) When government grant is related to specific fixed assets

- (a) <u>Where at the time of receipt, the amount of government grant reduced the cost</u> <u>of asset:</u> The amount of government grant refundable will increase the book value of the asset.
- (b) <u>Where at the time of receipt, the amount of government grant was credited to</u> <u>"Deferred Grant Account"</u>. The amount of government grant refundable will reduce the capital reserve or unamortized balance of deferred grant account as appropriate.

## (iii) When government grant is in the nature of Promoter's contribution

The amount of government grant refundable in part or in full on non-fulfilment of specific conditions, the relevant amount recoverable by the government will be reduced from capital reserve.

A government grant that becomes refundable is treated as an extra-ordinary item.

### **Question 28**

(a) A Company had deferred research and development cost ₹450 Lakhs. Sales expected in the subsequent years are as under:

| Years | Sales (₹ in Lakhs) |
|-------|--------------------|
| 1     | 1200               |
| 2     | 900                |
| 3     | 600                |
| 4     | 300                |

You are asked to suggest how should research and development cost be charged to Profit and Loss Account assuming entire cost of  $\not\in$  450 Lakhs is development cost. If at the end of 3<sup>rd</sup> year, it is felt that no further benefit will accrue in the 4<sup>th</sup> year, how the unamortized expenditure would be dealt with in the accounts of the company ?

(b) ABC Limited purchased a machinery for ₹ 25,00,000 which has estimated useful life of 10 years with the salvage value of ₹ 5,00,000. On purchase of the assets Central Government pays a grant for ₹ 5,00,000. Pass the journal entries with narrations in the books of the company for the first year, treating grant as deferred income.

(5 Marks each, May 2012) (IPCC)

#### Answer

(a) (i) Based on sales, research and development cost (assumed that entire cost of ₹ 450 lakhs is development cost) is allocated as follows:

| Year            | Research and Development cost allocation     |  |  |
|-----------------|--|--|--|
|                 | (₹ in lakhs)                                 |  |  |
| 1 <sup>st</sup> | $\frac{450}{3,000} \times 1200 = 180$        |  |  |
| 2 <sup>nd</sup> | $\frac{450}{3,000} \ \times \ 900 \ = \ 135$ |  |  |
| 3rd             | $\frac{450}{3,000} \times 600 = 90$          |  |  |
| 4 <sup>th</sup> | $\frac{450}{3,000} \ \times \ 300 \ = \ 45$  |  |  |

(ii) If at the end of the 3rd year, the circumstances do not justify that further benefit will accrue in the 4th year, then the company has to charge the unamortised amount i.e. remaining ₹ 135 lakhs [450 - (180 + 135)] as an expense immediately.

## **Question 29**

(i) Explain the concept of 'Weighted average number of equity shares outstanding during the period".

State how would you compute, based on AS-20 the weighted average number of equity shares in the following cases:

|                                |                               | No. of Shares |
|--------------------------------|-------------------------------|---------------|
| 1 <sup>st</sup> April, 2011    | Balance of Equity Shares      | 4,80,000      |
| 31 <sup>st</sup> August, 2011  | Equity shares issued for cash | 3,60,000      |
| 1 <sup>st</sup> February, 2012 | Equity shares bought back     | 1,80,000      |
| 31 <sup>st</sup> March, 2012   | Balance of equity shares      | 6,60,000      |

(ii) Compute adjusted earning per share and basic earning per share based on the following information:

| Net profit 2010-11               | ₹11,40,000 |
|----------------------------------|------------|
| Net profit 2011-12               | ₹22,50,000 |
| No. of equity shares outstanding | ₹5,00,000  |

Until 31<sup>st</sup> December, 2011

Bonus issue on 1st January, 2012

1 equity share for each equity share

outstanding as at 31st December, 2011

(5 Marks, May 2012) (IPCC)

## Answer

- (i) (a) As per para no. 16 of AS 20, the weighted average number of equity shares outstanding during the period reflects the fact that the amount of shareholders' capital may have varied during the period as a result of a larger or lesser number of shares outstanding at any time. Therefore, For the purpose of calculating basic or diluted earnings per share, the number of equity shares should be the weighted average number of equity shares outstanding during that shares outstanding during the period.
  - (b) Weighted average number of equity shares

| Period  |                        | Weighted shares |
|---|------------------------|-----------------|
| 1 <sup>st</sup> April, 2011 to 31 <sup>st</sup> August, 2011      | 4,80,000 shares x 5/12 | 2,00,000 shares |
| 1 <sup>st</sup> September, 2011 to 31 <sup>st</sup> January, 2012 | 8,40,000 shares x 5/12 | 3,50,000 shares |
| 1 <sup>st</sup> February, 2012 to 31 <sup>st</sup> March, 2012    | 6,60,000 shares x 2/12 | 1,10,000 shares |
| -   |                        | 6,60,000 shares |

## (ii) Earnings per share

Basic EPS 2010-11 = ₹ 11,40,000/5,00,000 shares = ₹ 2.28

Basic EPS 2011-12 = ₹ 22,50,000/10,00,000 shares = ₹ 2.25

Adjusted EPS 2010-11 = ₹ 11,40,000/10,00,000 shares = ₹ 1.14

Since the bonus issue is an issue without consideration, the issue is treated as if it had occurred prior to the beginning of the year 2010-11, the earliest period reported.

#### **Question 30**

- (a) Tiger Motor Car Limited signed an agreement with its employees union for revision of wages on 01.07.2011. The revision of wages is with retrospective effect from 01.04.2008. The arrear wages up to 31.3.2011 amounts to ₹ 40,00,000 and that for the period from 01.04.2011 to 01.07.2011 amount to ₹ 3,50,000. In view of the provisions of AS 5 "Net Profit or Loss for the period, Prior Period Items and Changes in Accounting Policies", decide whether a separate disclosure of arrear wages is required while preparing financial statements for the year ending 31.3.2012.
- (b) An airline is required by law to overhaul its aircraft once in every five years. The pacific Airlines which operate aircrafts does not provide any provision as required by law in its final accounts. Discuss with reference to relevant Accounting Standard 29.

Comment according to relevant Accounting Standard if

- (i) Sale price of ₹60 Lakhs is equal to fair value
- (ii) Fair Value is ₹ 50 Lakhs and sale price is ₹45 Lakhs.
- (iii) Fair value is ₹55 Lakhs and sale price is₹62 lakhs
- (iv) Fair value is ₹45 Lakhs and sale price is ₹48 Lakhs.
- (d) Cashier of A-One Limited embezzled cash amounting to ₹6,00,000 during March, 2012. However same comes to the notice of Company management during April, 2012 only. financial statements of the company is not yet approved by the Board of Directors of the company. With the help of provisions of AS 4 "Contingencies and Events Occurring after the Balance Sheet Date" decide, whether the embezzlement of cash should be adjusted in the books of accounts for the year ending March, 2012 ?

What will be your reply, if embezzlement of cash comes to the notice of company management only after approval of financial statements by the Boar Directors of the company ? (4 Marks each, May 2012) (IPCC)

## Answer

(a) It is given that revision of wages took place in July, 2011 with retrospective effect from 1.4.2008. The arrear wages payable for the period from 1.4.2008 to 31.3.2011 cannot be taken as an error or omission in the preparation of financial statements and hence this expenditure cannot be taken as a prior period item. Additional wages liability of

#### 2.36 Advanced Accounting

₹ 40,00,000 (from 1.4.2008 to 31.3.2011) should be included in current year's wages. It may be mentioned that additional wages is an expense arising from the ordinary activities of the company. Although abnormal in amount, such an expense does not qualify as an extraordinary item. However, as per para no. 12 of AS 5, when items of income and expense within profit or loss from ordinary activities are of such size, nature or incidence that their disclosure is relevant to explain the performance of the enterprise for the period, the nature and amount of such items should be disclosed separately. However, wages payable for the current year (from 1.4.2011 to 1.7.2011) amounting ₹ 3,50,000 is not a prior period item hence need not be disclosed separately. This may be shown as current year wages.

(b) A provision should be recognised only when an enterprise has a present obligation as a result of a past event. In the given case, there is no present obligation, therefore no provision is recognized as per AS 29.

The cost of overhauling aircraft is not recognized as a provision because it is a future obligation and the incurring of the expenditure depends on the company's decision to continue operating the aircrafts. Even a legal requirement to overhaul does not require the company to make a provision for the cost of overhaul because there is no present obligation to overhaul the aircrafts.

Further, the enterprise can avoid the future expenditure by its future action, for example by selling the aircraft. However, an obligation might arise to pay fines or penalties under the legislation after completion of five years. Assessment of probability of incurring fines and penalties depends upon the provisions of the legislation and the stringency of the enforcement regime.

A provision should be recognized for the best estimate of any fines and penalties if airline continues to operate aircrafts for more than five years.

- (c) According to AS 19, following will be the treatment in the given situations:
  - (i) When sales price of ₹ 60 lakhs is equal to fair value, X Ltd. should immediately recognize the profit of ₹10 lakhs (i.e. 60 50) in its books.
  - (ii) When fair value of leased JCB machine is ₹ 50 lakhs & sales price is ₹ 45 lakhs, then loss of ₹ 5 lakhs (50 – 45) to be immediately recognized by X Ltd. in its books provided loss is not compensated by future lease payments.
  - (iii) When fair value is ₹ 55 lakhs & sales price is ₹ 62 lakhs, profit of ₹ 5 lakhs (55 50) to be immediately recognized by X Ltd. in its books and balance profit of ₹ 7 lakhs (62-55) is to be amortised/deferred over lease period.
  - (iv) When fair value is ₹ 45 lakhs & sales price is ₹ 48 lakhs, then the loss of ₹ 5 lakhs (50-45) to be immediately recognized by X Ltd. in its books and profit of ₹ 3 lakhs (48-45) should be amortised/deferred over lease period.
- (d) As per para no. 13 of AS 4, assets and liabilities should be adjusted for events occurring after the balance sheet date that provide additional evidence to assist the estimation of

amounts relating to conditions existing at the balance sheet date.

Though the theft, by the cashier ₹ 6,00,000, was detected after the balance sheet date (before approval of financial statements) but it is an additional information materially affecting the determination of the cash amount relating to conditions existing at the balance sheet date. Therefore, it is necessary to make the necessary adjustments in the financial statements of the company for the year ended  $31^{st}$  March, 2012 for recognition of the loss amounting ₹ 6,00,000.

If embezzlement of cash comes to the notice of company management only after approval of financial statements by board of directors of the company, then the treatment will be done as per the provisions of AS 5. This being extra ordinary item should be disclosed in the statement of profit and loss as a part of loss for the year ending March, 2013. The nature and the amount of prior period items should be separately disclosed on the statement of profit and loss in a manner that its impact on current profit or loss can be perceived.

## **Question 31**

A company acquired for its internal use a software costing ₹10 lakhs\* on 28.01.2012 from the USA for US \$ 1,00,000. The exchange rate on that date was ₹52 per USD. The seller allowed trade discount @ 5%. The other expenditure were:

- (i) Import Duty : 20%
- (ii) Purchase Tax : 10 %
- (iii) Entry Tax : 5 % (Recoverable later from tax department)
- (iv) Installation expenses : ₹25,000
- (v) Profession fees for Clearance from Customs : ₹20,000
- Compute the cost of Software to be capitalized.

(5 Marks, November 2012) (IPCC)

#### Answer

## Calculation of cost of software (intangible asset) acquired for internal use

| Purchase cost of the software      | \$ 1,00,000       |
|------------------------------------|-------------------|
| Less: Trade discount @ 5%          | <u>(\$ 5,000)</u> |
|                                    | <u>\$ 95,000</u>  |
| Cost in ₹ (US \$ 95,000 x ₹ 52)    | 49,40,000         |
| Add: Import duty on cost @ 20% (₹) | 9,88,000          |

## **Question 32**

Define the term Finance Lease. State any three situations when a lease would be classified as finance lease. (4 Marks, November 2012) (IPCC)

#### Answer

As per AS 19, a finance lease is a lease that transfers substantially all the risks and rewards incident to ownership of an asset. Classification of lease into a finance lease or an operating lease depends on the substance of the transaction rather than its form. Some of the situations which would normally lead to a lease being classified as a finance lease are:

- (a) the lessor transfers ownership of the asset to the lessee by the end of the lease term;
- (b) the lessee has the option to purchase the asset at a price which is expected to be sufficiently lower than the fair value at the date the option becomes exercisable such that, at the inception of the lease, it is reasonably certain that the option will be exercised;
- (c) the lease term is for the major part of the economic life of the asset even if title is not transferred;

## **Question 33**

(a) Annual lease rent = ₹40,000 at the end of each year

Lease period = 5 years

Guaranteed residual value = ₹14,000

Fair value at the inception (beginning) of lease = ₹1,50,000

Interest rate implicit on lease is 12.6%. The present value factors at 12.6% are 0.89, 0.79, 0.7, 0.622, 0.552 at the end of first, second, third, fourth and fifth year respectively.

Show the Journal entry to record the asset taken on finance lease in the books of the lessee.

(b) A company is in a dispute involving allegation of infringement of patents by a competitor company who is seeking damages of a huge sum of ₹900 lakhs. The directors are of the

opinion that the claim can be successfully resisted by the company. How would you deal the same in the annual accounts of the company? (4 Marks each, November 2012) (IPCC)

- (b) As per para 14 of AS 29, 'Provisions, Contingent Liabilities and Contingent Assets', a provision should be recognised when
  - (a) an enterprise has a present obligation as a result of a past event;
  - (b) it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and
  - (c) a reliable estimate can be made of the amount of the obligation. If these conditions are not met, no provision should be recognised.

If these conditions are not met, no provision should be recognised.

In the given situation the directors of the company are of the opinion that the claim can be successfully resisted by the company, therefore there will be no outflow of the resources. The company will disclose the same as contingent liability by way of the following note:

"Litigation is in process against the company relating to a dispute with a competitor who alleges that the company has infringed patents and is seeking damages of ₹ 900 lakhs. However, the directors are of the opinion that the claim can be successfully resisted by the company."

## **Question 34**

Give two examples on each of the following items:

- (i) Change in Accounting Estimate
- (ii) Extra Ordinary Items
- (iii) Prior Period Items.

## Answer

- (i) Changes in Accounting Estimates examples:
  - a. Estimation of provision for doubtful debts on sundry debtors.
  - b. Estimation of useful life of fixed assets.
- (ii) Extraordinary items examples:
  - a. Loss due to earthquakes / fire / strike
  - b. Attachment of property of the enterprise
- (iii) Prior period items examples:
  - a. Applying incorrect rate of depreciation in one or more prior periods.
  - b. Omission to account for income or expenditure in one or more prior periods.

## **Question 35**

(a) Net profit for the year 2012 : ₹24,00,000

Weighted average number of equity shares outstanding during the year 2012: 10,00,000 Average Fair value of one equity share during the year 2012 : ₹25.00 Weighted average number of shares under option during the year 2012: 2,00,000 Exercise price for shares under option during the year 2012 : ₹20.00 Compute Basic and diluted earnings per share.

- (b) Closing Stock for the year ending on 31<sup>st</sup> March, 2013 is ₹1,50,000 which includes stock damaged in a fire in 2011-12. On 31<sup>st</sup> March, 2012, the estimated net realizable value of the damaged stock was ₹ 12,000. The revised estimate of net realizable value of damaged stock included in closing stock at 2012-13 is ₹4,000. Find the value of closing stock to be shown in Profit and Loss Account for the year 2012-13, using provisions of Accounting Standard 5.
- (c) An engineering goods company provides after sales warranty for 2 years to its customers. Based on past experience, the company has been following policy for making provision for warranties on the invoice amount, on the remaining balance warranty period:

Less than 1 year : 2% provision More than 1 year : 3% provision (4 Marks, November 2012) (IPCC)

The company has raised invoices as under:

| Invoice Date                   | Amount (₹) |
|--------------------------------|------------|
| 19 <sup>th</sup> January, 2011 | 40,000     |
| 29 <sup>th</sup> January, 2012 | 25,000     |
| 15 <sup>th</sup> October, 2012 | 90,000     |

Calculate the provision to be made for warranty under Accounting Standard 29 as at 31<sup>st</sup> March, 2012 and 31<sup>st</sup> March, 2013. Also compute amount to be debited to Profit and Loss Account for the year ended 31<sup>st</sup> March, 2013.

(d) An enterprise acquired patent right for ₹ 400 lakhs. The product life cycle has been estimated to be 5 years and the amortization was decided in the ratio of estimated future cash flows which are as under:

| Year | Estimated Future Cash Flows<br>(₹in lakhs) |  |
|------|--|--|
| 1    | 200  |  |
| 2    | 200  |  |
| 3    | 200  |  |
| 4    | 100  |  |
| 5    | 100  |  |

After 3<sup>rd</sup> year, it was ascertained that the patent would have an estimated balance future life of 3 years and the estimated cash flow after 5<sup>th</sup> year is expected to be  $\gtrless$  50 lakhs. Determine the amortization under Accounting Standard 26.

| Diluted earnings per share   | 24,00,000       | 10,40,000  | ₹ 2.31                |

## 2.42 Advanced Accounting

\*The earnings have not been increased as the total number of shares has been increased only by the number of shares (40,000) deemed for the purpose of computation to have been issued for no consideration.

(b) The fall in estimated net realisable value of damaged stock ₹ 8,000 is the effect of change in accounting estimate. As per para 25 of AS 5 'Net Profit or Loss for the Period, Prior Period Items and Changes in Accounting Policies', the effect of a change in accounting estimate should be classified using the same classification in the statement of profit and loss as was used previously for the estimate. It is presumed that the loss by fire in the year ended 31.3.2012, i.e. difference of cost and NRV was shown in the profit and loss account as an extra-ordinary item. Therefore, in the year 2012-13, revision in accounting estimate should also be classified as extra-ordinary item in the profit and loss account and closing stock should be shown excluding the value of damaged stock.

Value of closing stock for the year 2012-13 will be as follows:

|   | ₹               |
|---|-----------------|
| Closing Stock (including damaged goods) | 1,50,000        |
| Less: Revised value of damaged goods    | (4,000)         |
| Closing stock (excluding damaged goods) | <u>1,46,000</u> |

(c) Provision to be made for warranty under AS 29 'Provisions, Contingent Liabilities and Contingent Assets'

| As at 31 <sup>st</sup> March, 2012 | = ₹ 40,000 x .02 + ₹ 25,000 x .03 |
|------------------------------------|-----------------------------------|
|                                    | = ₹ 800 + ₹ 750 = ₹ 1,550         |
| As at 31 <sup>st</sup> March, 2013 | = ₹ 25,000 x .02 + ₹ 90,000 x .03 |
|                                    | = ₹ 500 + ₹ 2,700 = ₹ 3,200       |
|                                    |                                   |

## Amount debited to Profit and Loss Account for year ended 31st March, 2013

|  | ₹              |
|--|----------------|
| Balance of provision required as on 31.03.2013 | 3,200          |
| Less: Opening Balance as on 1.4.2012           | <u>(1,550)</u> |
| Amount debited to profit and loss account      | <u>1,650</u>   |

**Note:** No provision will be made on 31<sup>st</sup> March, 2013 in respect of sales amounting ₹ 40,000 made on 19<sup>th</sup> January, 2011 as the warranty period of 2 years has already expired.

## (d) Amortization of cost of patent as per AS 26

| Year | Estimated future cash flow<br>(₹in lakhs) | Amortization Ratio | Amortized Amount<br>(₹in lakhs) |
|------|---|--------------------|---------------------------------|
| 1    | 200                                       | .25                | 100                             |

| 2 | 200 | .25           | 100        |
|---|-----|---------------|------------|
| 3 | 200 | .25           | 100        |

| 5 | 100 | .40 (Revised) | 40         |
| 6 | 50  | .20 (Revised) | <u>20</u>  |
|   |     |               | <u>400</u> |

In the first three years, the patent cost will be amortised in the ratio of estimated future cash flows i.e. (200: 200: 200: 100: 100).

The unamortized amount of the patent after third year will be  $\gtrless$  100 (400-300) which will be amortised in the ratio of revised estimated future cash flows (100:100:50) in the fourth, fifth and sixth year.

## **Question 36**

- (a) Neel Limited has its corporate office in Mumbai and sells its products to stockists all over India. On 31st March, 2013, the company wants to recognize receipt of cheques bearing date 31st March, 2013 or before, as "Cheques in Hand" by reducing "Trade Receivables". The "Cheques in Hand" is shown in the Balance Sheet as an item of cash and cash equivalents. All cheques are presented to the bank in the month of April 2013 and are also realized in the same month in normal course after deposit in the bank. State with reasons, whether each of the following is an adjusting event and how this fact is to be disclosed by the company, with reference to the relevant accounting standard.
  - (i) Cheques collected by the marketing personnel of the company from the stockists on or before 31st March, 2013.
  - (ii) Cheques sent by the stockists through courier on or before 31st March, 2013.
- (b) Explain "monetary item" as per Accounting Standard 11. How are foreign currency monetary items to be recognized at each Balance Sheet date? Classify the following as monetary or non-monetary item:
  - (i) Share Capital
  - (ii) Trade Receivables
  - (iii) Investments
  - (iv) Fixed Assets.

(4 Marks each, May 2013) (IPCC)

## Answer

(a) (i) Cheques collected by the marketing personnel of the company is an adjusting event as the marketing personnels are employees of the company and therefore, are

### 2.44 Advanced Accounting

representatives of the company. Handing over of cheques by the stockist to the marketing employees discharges the liability of the stockist. Therefore, cheques collected by the marketing personnel of the company on or before 31<sup>st</sup> March, 2013 require adjustment from the stockists' accounts i.e. from 'Trade Receivables A/c' even though these cheques (dated on or before 31<sup>st</sup> March, 2013) are presented in the bank in the month of April, 2013 in the normal course. Hence, collection of cheques by the marketing personnel is an adjusting event as per AS 4 'Contingencies and Events Occurring after the Balance Sheet Date'. Such 'cheques in hand' will be shown in the Balance Sheet as 'Cash and Cash equivalents' with a disclosure in the Notes to accounts about the accounting policy followed by the company for such cheques.

- (ii) Even if the cheques bear the date 31<sup>st</sup> March or before and are sent by the stockists through courier on or before 31<sup>st</sup> March, 2013, it is presumed that the cheques will be received after 31<sup>st</sup> March. Collection of cheques after 31<sup>st</sup> March, 2013 does not represent any condition existing on the balance sheet date i.e. 31<sup>st</sup> March. Thus, the collection of cheques after balance sheet date is not an adjusting event. Cheques that are received after the balance sheet date should be accounted for in the period in which they are received even though the same may be dated 31<sup>st</sup> March or before as per AS 4. Moreover, the collection of cheques after balance sheet date does not represent any material change affecting financial position of the enterprise, so no disclosure in the Director's Report is necessary.
- (b) As per AS 11' The Effects of Changes in Foreign Exchange Rates', Monetary items are money held and assets and liabilities to be received or paid in fixed or determinable amounts of money.

Foreign currency monetary items should be reported using the closing rate at each balance sheet date. However, in certain circumstances, the closing rate may not reflect with reasonable accuracy the amount in reporting currency that is likely to be realised from, or required to disburse, a foreign currency monetary item at the balance sheet date. In such circumstances, the relevant monetary item should be reported in the reporting currency at the amount which is likely to be realised from or required to disburse, such item at the balance sheet date.

| Share capital     | Non-monetary |
|-------------------|--------------|
| Trade receivables | Monetary     |
| Investments       | Non-monetary |
| Fixed assets      | Non-monetary |

## **Question 37**

Answer the following questions:

(a) State with reasons, how the following events would be dealt with in the financial

statements of Pradeep Ltd. for the year ended 31<sup>st</sup> March, 2013:

- (i) An agreement to sell a land for ₹ 30 lakh to another company was entered into on 1<sup>st</sup> March, 2013. The value of land is shown at ₹ 20 lakh in the Balance Sheet as on 31<sup>st</sup> March, 2012. However, the Sale Deed was registered on15th April, 2013.
- (ii) The negotiation with another company for acquisition of its business was started on 2<sup>nd</sup> February, 2013. Pradeep Ltd. invested ₹40 lakh on 12<sup>th</sup> April, 2013.
- (b) Cost of a machine acquired on 01.04.2009 was ₹ 5,00,000. The machine is expected to realize ₹ 50,000 at the end of its working life of 10 years. Straight-line depreciation of ₹ 45,000 per year has been charged upto 2011-2012. For and from 2012-13, the company switched over to 15% p.a. reducing balance method of depreciation in respect of the machine. The new rate of depreciation is based on revised useful life of 15 years. The new rate shall apply with retrospective effect from 01.04.2009. State how would you deal with the above in the annual accounts of the Company for the year ended 31<sup>st</sup> March, 2013 in the light of AS 5.
- (c) Beekay Ltd. purchased fixed assets costing ₹ 5,000 lakh on 01.04.2012 payable in foreign currency (US\$) on 05.04.2013. Exchange rate of 1 US\$ = ₹ 50.00 and ₹ 54.98 as on 01.04.2012 and 31.03.2013 respectively.

The company also obtained a soft loan of US\$ 1 lakh on 01.04.2012 payable in three annual equal instalments. First instalment was due on 01.05.2013.

You are required to state, how these transactions would be accounted for in the books of accounts ending 31<sup>st</sup> March, 2013. (5 Marks each, November 2013) (IPCC)

#### Answer

(a) (i) According to AS 4 "Contingencies and Events Occurring after the Balance Sheet Date", assets and liabilities should be adjusted for events occurring after the balance sheet date that provide additional evidence to assist the estimation of amounts relating to conditions existing at the balance sheet date.

In the given case, sale of immovable property was carried out before the closure of the books of accounts. This is clearly an event occurring after the balance sheet date but agreement to sell was effected on 1<sup>st</sup> March, 2013 i.e. before the balance sheet date. Registration of the sale deed on 15<sup>th</sup> April, 2013, simply provides additional information relating to the conditions existing at the balance sheet date. Therefore, adjustment to assets for sale of land is necessary in the financial statements of Pradeep Ltd. for the year ended 31<sup>st</sup> March, 2013.

(ii) AS 4 (Revised) defines "Events occurring after the balance sheet date" as those significant events, both favorable and unfavorable, that occur between the balance sheet date and the date on which the financial statements are approved by the Board of Directors in the case of a company. Accordingly, the acquisition of another company is an event occurring after the balance sheet date. However, no

### 2.46 Advanced Accounting

adjustment to assets and liabilities is required as the event does not affect the determination and the condition of the amounts stated in the financial statements for the year ended 31st March, 2013.

Applying provisions of the standard which clearly state that/disclosure should be made in the report of the approving authority of those events occurring after the balance sheet date that represent material changes and commitments affecting the financial position of the enterprise, the investment of ₹ 40 lakhs in April, 2013 in the acquisition of another company should be disclosed in the report of the Board of Directors to enable users of financial statements to make proper evaluations and decisions.

(b) WDV of asset at the end of year 2011-12= ₹ 5,00,000 – ₹ 45,000 x 3 = ₹ 3,65,000

WDV of asset at the end of year 2011-12 (by reducing balance method)

= ₹ 5,00,000 (1 - 0.15)<sup>3</sup> = ₹ 3,07,062.50

Depreciation to be charged in year 2012-13

= (₹ 3,65,000 – ₹ 3,07,062.50) + 15% of ₹ 3,07,062.50

₹ 57,937.50 + ₹ 46,059.38 = ₹ 1,03,997 (approx.)

As per AS 5 'Net profit or loss for the period, Prior Period Items and Changes in Accounting Policies' the revision of remaining useful life is change in accounting estimate, and adoption of reducing balance method of depreciation instead of the straight-line method is change in accounting policy. Since it is difficult to segregate impact of these two changes, the entire amount of difference between depreciation at old rate and depreciation charged in 2012-13 (₹ 1,03,997- ₹ 45,000 = ₹ 58,997) is regarded as an effect of change in accounting estimate as per provisions of the standard. The effect of this change in accounting estimate should be properly disclosed in the financial statements of the company for the year ended 31<sup>st</sup> March, 2013.

(c) As per AS 11 (Revised) 'The Effects of Changes in Foreign Exchange Rates', exchange differences arising on the settlement of monetary items or on reporting an enterprise's monetary items at rates different from those at which they were initially recorded during the period, or reported in previous financial statements, should be recognised as income or as an expense in the period in which they arise. However, Ministry of Corporate Affairs has recently amended AS 11 through a notification. As per the notification, exchange difference arising on reporting of long-term foreign currency monetary items at rates different from those at which they were initially recorded during the period, or reported in previous financial statements, in so far as they relate to requisition of depreciable capital asset, can be added to or deducted from cost of asset. The MCA has given an option for the enterprises to capitalize the exchange differences arising on reporting of long term foreign currency monetary items till 31<sup>st</sup> March, 2020. Thus the company can capitalize the exchange differences arising due to long term loans linked with the acquisition of fixed assets.

#### Transaction 1: Calculation of exchange difference on fixed assets

Foreign Exchange Liability =  $\frac{5,000}{50}$  = US \$ 100 lakhs

Exchange Difference = US \$ 100 lakhs x (₹ 54.98 – ₹ 50) = ₹ 498 lakhs.

Loss due to exchange difference amounting ₹ 498 lakhs will be capitalised and added in the carrying value of fixed assets. Depreciation on the unamortised amount will be provided in the remaining years

## Transaction 2: Soft loan exchange difference (US \$ 1 lakh i.e ₹ 50 lakhs)

Value of Ioan 31.3.13 → US \$ 1 lakh x 54.98 = ₹ 54,98,000

AS 11 also provides that in case of liability designated as long-term foreign currency monetary item (having a term of 12 months or more at the time of origination) the exchange difference is to be accumulated in the Foreign Currency Monetary Item Translation Difference (FCMITD) and should be written off over the useful life of such long-term liability, by recognition as income or expenses in each of such periods.

Exchange difference between reporting currency (INR) and foreign currency (USD) as on 31.03.2013 = US\$1.00 lakh X ₹ (54.98 - 50) = ₹ 4.98 lakh.

Loan account is to be increased to 54.98 lakh and FCMITD account is to be debited by 4.98 lakh. Since loan is repayable in 3 equal annual instalments, ₹ 4.98 lakh/3 = ₹ 1.66 lakh is to be charged in Profit and Loss Account for the year ended  $31^{st}$  March, 2013 and balance in FCMITD A/c ₹ (4.98 lakh – 1.66 lakh) = ₹ 3.32 lakh is to be shown on the 'Equity & Liabilities' side of the Balance Sheet as a negative figure under the head 'Reserve and Surplus' as a separate line item.

**Note:** The above answer is given on the basis that the company has availed the option under para 46A of AS 11

## **Question 38**

- (a) Classify the following into either operating or finance lease:
  - (i) Lessee has option to purchase the asset at lower than fair value, at the end of lease term;
  - Economic life of the asset is 7 years, lease term is 6 years, but asset is not acquired at the end of the lease term;
  - (iii) Economic life of the asset is 6 years, lease term is 2 years, but the asset is of special nature and has been procured only for use of the lessee;
  - (iv) Present value (PV) of Minimum lease payment (MLP) = "X". Fair value of the asset is "Y".
- (b) Plymouth Ltd. is engaged in research on a new process design for its product. It had incurred ₹ 10 lakh on research during first 5 months of the financial year 2012-13. The

development of the process began on 1st September, 2012 and upto 31<sup>st</sup> March, 2013, a sum of ₹8 lakh was incurred as Development Phase Expenditure, which meets assets recognition criteria.

From 1<sup>st</sup> April, 2013, the Company has implemented the new process design and it is likely that this will result in after tax saving of ₹2 lakh per annum for next five years.

The cost of capital is 10%. The present value of annuity factor of  $\gtrless$  1 for 5 years @ 10% is 3.7908.

Decide the treatment of Research and Development Cost of the project as per AS 26.

(c) Raj & Co. has taken a loan of US\$ 20,000 at the beginning of the financial year for a specific project at an interest rate of 6% per annum, payable annually. On the day of taking loan, the exchange rate between currencies was ₹ 48 per 1 US\$. The exchange rate at the closing of the financial year was ₹ 50 per 1 US\$. The corresponding amount could have been borrowed by the company in Indian Rupee at an interest rate of 11 % per annum. Determine the treatment of borrowing cost in the books of accounts.

(4 Marks each, November 2013) (IPCC)

#### Answer

- (a) (i) If it becomes certain at the inception of lease itself that the option will be exercised by the lessee, it is a Finance Lease.
  - (ii) The lease will be classified as a finance lease, since a substantial portion of the life of the asset is covered by the lease term.
  - (iii) Since the asset is procured only for the use of lessee, it is a finance lease.
  - (iv) The lease is a finance lease if X = Y, or where X substantially equals Y.
- (b) <u>Research Expenditure</u> According to AS 26 'Intangible Assets', the expenditure on research of new process design for its product ₹ 10 lakhs should be charged to Profit and Loss Account in the year in which it is incurred. It is presumed that the entire expenditure is incurred in the financial year 2012-13. Hence, it should be written off as an expense in that year itself.

<u>Cost of internally generated intangible asset</u> – it is given that development phase expenditure amounting ₹ 8 lakhs incurred upto 31<sup>st</sup> March, 2013 meets asset recognition criteria. As per AS 26, for measurement of such internally generated intangible asset, fair value should be estimated by discounting estimated future net cash flows.

| Savings (after tax) from implementation of new design for next 5 years | ₹ 2 lakhs p.a. |
|--|----------------|
|  | 10 %           |
| Annuity factor @ 10% for 5 years                                       | 3.7908         |
| Present value of net cash flows (₹ 2 lakhs x 3.7908)                   | ₹ 7.582 lakhs  |

The cost of an internally generated intangible asset would be lower of cost value  $\gtrless$  8 lakhs or present value of future net cash flows  $\gtrless$  7.582 lakhs.

Hence, cost of an internally generated intangible asset will be ₹ 7.582 lakhs.

The difference of  $\stackrel{\textbf{F}}{\textbf{I}}$  0.418 lakhs (i.e.  $\stackrel{\textbf{F}}{\textbf{I}}$  8 lakhs –  $\stackrel{\textbf{F}}{\textbf{I}}$  7.582 lakhs) will be amortized by Plymouth for the financial year 2012-13.

<u>Amortisation</u> - The company can amortise ₹ 7.582 lakhs over a period of five years by charging ₹ 1.516 lakhs per annum from the financial year 2013-2014 onwards.

(c) The following computations would be made to determine the amount of borrowing costs for the purpose of AS 16 ' Borrowing Costs':

Interest for the period = US \$ 20,000 × ₹ 50 per US \$ × 6% = ₹ 60,000.

Increase in the liability towards the principal amount

= US\$ 20,000 × ₹ (50-48) = ₹ 40,000.(A)

Interest that would have resulted if the loan was taken in Indian Currency

= US \$ 20,000 × 48 × 11% = ₹ 1,05,600

Difference between interest on local currency borrowing and foreign currency borrowing = ₹ 1,05,600 – ₹ 60,000 = ₹ 45,600 (B)

In the above case, ₹ 40,000 (A) is less than ₹ 45,600 (B), therefore the entire exchange difference of ₹ 40,000 would be considered as borrowing costs. The total borrowing cost would be ₹ 1,00,000 (₹ 60,000+ ₹ 40,000)

## **Question 39**

Answer the following questions:

(a) In its Final Accounts for the year ended 31<sup>st</sup> March, 2014, Z Ltd. made a provision of 3% of its total debtors. On 10<sup>th</sup> March, 2014, a debtor of ₹5 lakhs suffered a heavy loss and became insolvent in April 2014. The loss was not insured.

State giving reasons, if the company may provide for the full loss in its accounts for the year ended 31<sup>st</sup> March, 2014.

(b) Suhana Ltd. issued 12% secured debentures of ₹ 100 Lakhs on 01.05.2013, to be utilized as under:

| Particulars                      | Amount (₹in lakhs) |
|----------------------------------|--------------------|
| Construction of factory building | 40                 |
| Purchase of Machinery            | 35                 |
| Working Capital                  | 25                 |

## 2.50 Advanced Accounting

In March 2014, construction of the factory building was completed and machinery was installed and ready for it's intended use. Total interest on debentures for the financial year ended 31.03.2014 was  $\gtrless$  11,00,000. During the year 2013-14, the company had invested idle fund out of money raised from debentures in banks' fixed deposit and had earned an interest of  $\gtrless$  2,00,000.

Show the treatment of interest under Accounting Standard 16 and also explain nature of assets.

(c) What do you understand by the term "Interest rate implicit on lease"?

Calculate the interest rate implicit on lease from the following details:

| Annual Lease Rent                        | ₹80,000 at the end of each year |
|--|---------------------------------|
| Lease Period                             | 5 Years                         |
| Guaranteed Residual Value                | ₹40,000                         |
| Unguaranteed Residual Value              | ₹24,000                         |
| Fair Value at the inception of the lease | ₹3,20,000                       |

Discounted rates for the first 5 years are as below:

At 10% 0.909, 0.826, 0.751, 0.683, 0621

- At 14% 0.877, 0.769, 0.675, 0.592, 0.519
- (d) The following information is available for AB Ltd. for the accounting year 2012-13 and 2013-14:

| Net p | ₹       |           |
|-------|---------|-----------|
| Year  | 2012-13 | 22,00,000 |
| Year  | 2013-14 | 30,00,000 |

No of shares outstanding prior to right issue 10,00,000 shares.

Right issue: One new share for each five shares outstanding i.e. 2,00,000 shares.

: Right Issue price ₹25

Last date to exercise right 31<sup>st</sup> July, 2013

Fair value of one equity share immediately prior to exercise of rights on 31.07.2013 is ₹32.

You are required to compute:

- (i) Basic earnings per share for the year 2012-13.
- (ii) Restated basic earnings per share for the year 2012-13 for right issue.
- (iii) Basic earnings per share for the year 2013-14. (5 Marks each, IPCC May, 2014)

#### Answer

(a) According to para 8.2 of Accounting Standard 4 "Contingencies and Events Occurring after the Balance Sheet Date", adjustments to assets and liabilities are required for events occurring after the balance sheet date that provide additional information materially affecting the determination of the amounts relating to conditions existing at the balance sheet date.

In the given case, though the debtor became insolvent after balance sheet date, yet he had suffered heavy loss (not covered by the insurance), before the balance sheet date and this loss was the cause of the insolvency of the debtor. Therefore, the company must make full provision for bad debts amounting ₹ 5 lakhs in its final accounts for the year ended 31<sup>st</sup> March, 2014.

(b) According to para 6 of AS 16 "Borrowing Costs", borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset should be capitalised as part of the cost of that asset. The amount of borrowing costs eligible for capitalisation should be determined in accordance with this Standard. Other borrowing costs should be recognised as an expense in the period in which they are incurred.

Also para 10 of AS 16 "Borrowing Costs" states that to the extent that funds are borrowed specifically for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalisation on that asset should be determined as the actual borrowing costs incurred on that borrowing during the period less any income on the temporary investment of those borrowings.

Thus, eligible borrowing cost

- (b) any unguaranteed residual value accruing to the lessor,

to be equal to the fair value of the leased asset.

#### 1. Computation of theoretical ex-rights fair value per share =

Fair value of all outstanding shares immediately prior to exercise of rights+total amount received from exercise

Number of shares outstanding prior to exercise + number of shares issued in the exercise

(₹ 32 x 10,00,000) + (₹ 25 x 2,00,000) 10,00,000 + 2,00,000

= ₹ 30.83

2. Computation of adjustment factor

Fair value per share prior to exercise of rights Theoretical ex-rights value per share

## **Question 40**

Explain in brief the treatment of Refund of Government Grants in line with AS 12 in the following three situations:

- (a) When Government Grant is related to revenue,
- (b) When Government Grant is related to specific fixed assets,
- (c) When Government Grant is in the nature of Promoter's contribution. (4 Marks, IPCC May, 2014)

## 2.54 Advanced Accounting

#### Answer

As per AS 12, refund of Government Grant is treated in the following manner:

- (a) When Government Grant is related to Revenue:
  - The amount of refund is first adjusted against any unamortized deferred credit balance still remaining in respect of the Grant
  - (ii) Any excess refund over such deferred credit balance or where no deferred credit exists, is immediately charged to Profit & Loss Account.
- (b) When Government Grant is related to specific Fixed Asset:
  - (i) The amount of refund will increase the Book Value of the Asset, if at the time of receipt of Grant, the cost of asset was reduced by the amount of Grant.
  - (ii) If at the time of receipt, the Grant amount was credited to Deferred Grant Account, then the amount of refund will first reduce the unamortized balance of Deferred Grant Account, any excess refund will reduce the Capital Reserve.
- (c) When the Government Grant is in the nature of Promoter's Contribution:

Capital Reserve will be reduced by the amount of refund.

#### Question 41

Answer the following questions:

(a) A machine having expected useful life of 6 years, is leased for 4 years. Both the cost and the fair value of the machinery are ₹ 7,00,000. The amount will be paid in 4 equal instalments and at the termination of lease, lessor will get back the machinery. The unguaranteed residual value at the end of the 4<sup>th</sup> year is ₹ 70,000. The IRR of the investment is 10%. The present value of annuity factor of ₹1 due at the end of 4<sup>th</sup> year at 10% IRR is 3.169. The present value of ₹1 due at the end of 4<sup>th</sup> year at 10% rate of interest is 0.683.

State with reasons whether the lease constitutes finance lease and also compute the unearned finance income.

- (b) A company is showing an intangible asset at ₹ 88 lakhs as on 01.04.2013. This asset was acquired for ₹ 120 lakhs on 01.04.2009 and the same was available for use from that date. The company has been following the policy of amortization of the intangible assets over a period of 15 years on straight line basis. Comment on the accounting treatment of the above with reference to the relevant Accounting Standard.
- (c) Stem Ltd. purchased a Plant for US\$ 30,000 on 30<sup>th</sup> November, 2013 payable after 6 months. The company entered into a forward contract for 6 months @ ₹ 62.15 per dollar. On 30<sup>th</sup> November, 2013, the exchange rate was ₹ 60.75 per dollar.

How will you recognise the profit or loss on forward contract in the books of Stem Ltd. for the year ended 31<sup>st</sup> March, 2014 ?

(d) WZW Ltd. is in dispute involving allegation of infringement of patents by a competitor company who is seeking damages of a huge sum of ₹ 1000 Lakhs. The directors are of the opinion that the claim can be successfully resisted by the company. How would you deal the same in the Annual Accounts of the company?

(5 Marks each, IPCC November, 2014)

#### Answer

#### (a) (i) Determination of nature of lease

Fair value of asset is  $\gtrless$  7,00,000 and Unguaranteed residual value is  $\gtrless$  70,000Present value of residual value at the end of 4th Year =  $\gtrless$  70,000 x 0.683 =  $\gtrless$  47,810Present value of lease payment recoverable=  $\gtrless$  7,00,000 -  $\gtrless$  47,810=  $\gtrless$  6,52,190

The percentage of present value of lease payment to fair value of the asset is

= (₹ 6,52,190/₹7,00,000)x100

Since it substantially covers the major portion of lease payments and life of the asset, the lease constitutes a finance lease.

#### (ii) Calculation of Unearned finance income

| Annual lease payment =                       | ₹ 6,52,1     | 90 / 3.169  |
|--|--------------|---|
| =  | ₹ 2,05,8     | 303 (approx.)   |
| Gross investment in the lease residual value | = Total<br>= | minimum lease payments + unguaranteed<br>(₹ 2,05,803 x 4) + ₹70000              |
|  | =            | ₹ 8,23,212 + ₹70,000  |
|  | =            | ₹ 8,93,212  |
| Unearned finance income =                    |              | nvestment – Present value of minimum<br>ayment and unguaranteed residual value. |
| =  | ₹ 8,93,2     | 212 – ₹ 7,00,000 (₹ 6,52,190 + ₹ 47,810)  |
| =  | ₹ 1,93,2     | 12  |

(b) As per para 63 of AS 26 'Intangible Assets', the depreciable amount of an intangible asset should be allocated on systematic basis over the best estimate of its useful life. There is a rebuttable presumption that the useful life of an intangible asset will not exceed ten years from the date when the asset is available for use.

Company has been following the policy of amortisation of the intangible asset over a period of 15 years on straight line basis. The period of 15 years is more than the maximum period of 10 years specified as per AS 26. Accordingly, the company would

be required to restate the carrying amount of intangible asset as on 01.04.2013 at ₹ 72 lakhs i.e. ₹ 120 lakhs less ₹ 48 lakhs\*.

The difference of  $\gtrless$  16 Lakhs ( $\gtrless$  88 lakhs –  $\gtrless$  72 lakhs) will be adjusted against the opening balance of revenue reserve. The carrying amount of  $\gtrless$  72 lakhs will be amortised over remaining 6 years by amortising  $\gtrless$  12 lakhs per year.

(c) Calculation of Profit or Loss on forward contract to be recognised in the book of Stem Ltd.

| Forward contract rate                        | ₹ 62.15 per dollar     |
|--|------------------------|
| Less: Spot Rate                              | ₹ 60.75 per dollar     |
| Loss   | ₹ 1.40 per dollar      |
| Forward Contract Amount                      | US\$ 30000             |
| Total Loss on entering into forward contract | = US\$ 30,000 x ₹ 1.40 |
|  | = ₹ 42,000             |
| Contract Period                              | 6 Months               |
|  | 4 U C U .              |

Out of total contract period of 6 months, 4 months are falling in the financial year 2013-14.

Loss for the period from 1<sup>st</sup> Dec.2013 to 31<sup>st</sup> March, 2014= (₹ 42,000/6) x 4 = ₹ 28,000.

Thus the loss amounting to ₹ 28,000 for the period is to be recognised in the year ended 31<sup>st</sup> March, 2014.

- (d) As per para 14 of AS 29 'Provisions, Contingent Liabilities and Contingent Assets', a provision should be recognised when:
  - (i) An enterprise has a present obligation as a result of past event;
  - (ii) It is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and
  - (iii) A reliable estimate can be made of the amount of the obligation.

If these conditions are not met, no provision should be recognised.

A contingent liability is disclosed, unless the possibility of an outflow of resources embodying economic benefits is remote. The possibility of an outflow of resources embodying economic benefits seems to be remote in the given situation, since the directors of WZW Ltd. are of the opinion that the claim can be successfully resisted by the company. Therefore, the company shall not disclose the same as contingent liability.

(₹120 Lakhs 10 years × 4 years = 48 Lakhs) However, following note in this regard may be given in annual accounts of the company:

"Litigation is in process against the company relating to a dispute with a competitor who alleges that the company has infringed patents and is seeking damages of ₹ 1,000 lakhs. However, the directors are of the opinion that the claim can be successfully resisted by the company".

## **Question 42**

Answer any **four** of the following:

- (a) Give **two** examples of each of the following items:
  - (i) Change in Accounting Policy
  - (ii) Change in Accounting Estimate
  - (iii) Extra Ordinary Items,
  - (iv) Prior Period Item
- (b) What are the indicators of Non-Integral Foreign Operation (NFO)?
- (c) In the following list of shares issued, for the purpose of calculation of weighted average number of shares, from which date weight is to be considered:
  - (i) Equity Shares issued in exchange of cash,
  - (ii) Equity Shares issued as a result of conversion of a debt instrument,
  - (iii) Equity Shares issued in exchange for the settlement of a liability of the enterprise,
  - (iv) Equity Shares issued for rendering of services to the enterprise,
  - (v) Equity Shares issued in lieu of interest and/or principal of an other financial instrument,
  - (vi) Equity Shares issued as consideration for the acquisition of an asset other than in cash.

Also define Potential Equity Share. (4 Marks each, IPCC November, 2014)

#### Answer

#### (a) (i) Examples of Change in Accounting Policy

- (a) Change in depreciation method from WDV to SLM or vice-versa;
- (b) Change in cost formula in measuring the cost of inventories.
- (ii) Examples of Change in Accounting Estimate:
  - (a) Change in estimate of provision for doubtful debts on sundry debtors;
  - (b) Change in estimate of useful life of fixed assets.

## Unit 1: Dissolution of firms

## Question 1

'X' and 'Y' carrying on business in partnership sharing Profit and Losses equally, wished to dissolve the firm and sell the business to 'X' Limited Company on 31-3-2006, when the firm's position was as follows:

| Liabilities      | ₹               | Assets            | ₹               |
|------------------|-----------------|-------------------|-----------------|
| X's Capital      | 1,50,000        | Land and Building | 1,00,000        |
| Y's Capital      | 1,00,000        | Furniture         | 40,000          |
| Sundry Creditors | 60,000          | Stock             | 1,00,000        |
|                  |                 | Debtors           | 66,000          |

The arrangement with X Limited Company was as follows:

- (i) Land and Building was purchased at 20% more than the book value.
- (ii) Furniture and stock were purchased at book values less 15%.
- (iii) The goodwill of the firm was valued at ₹40,000.
- (iv) The firm's debtors, cash and creditors were not to be taken over, but the company agreed to collect the book debts of the firm and discharge the creditors of the firm as an agent, for which services, the company was to be paid 5% on all collections from the firm's debtors and 3% on cash paid to firm's creditors.
- (v) The purchase price was to be discharged by the company in fully paid equity shares of ₹10 each at a premium of ₹2 per share.

The company collected all the amounts from debtors. The creditors were paid off less by  $\notin$  1,000 allowed by them as discount. The company paid the balance due to the vendors in cash.

1 Calculation of Purchase consideration:

|                 | ₹               |
|-----------------|-----------------|
| Land & Building | 1,20,000        |
| Furniture       | 34,000          |
| Stock           | 85,000          |
| Goodwill        | <u>40,000</u>   |
|                 | <u>2,79,000</u> |

2. The shares received from the company have been distributed between the two partners A & B in the ratio of their final claims i.e., 1,67,465: 1,17,465\*.

No. of shares received from the company = 
$$\frac{2,79,000}{12}$$
 = 23,250

A gets  $\frac{23,250 \times 1,67,465}{2,84,930}$  = 13,665 shares valued at 13,665 x 12 = ₹ 1,63,980. B gets the

#### **Question 2**

Explain Garner v/s Murray rule applicable in the case of partnership firms. State, when is this rule not applicable. (2 Marks, May, 2008 - PCC) and (2 Marks, IPCC May, 2013)

<sup>\*</sup> In the above situation, shares received from X Ltd. Company have been distributed between two partners A and B in the ratio of their final claims. Alternatively, shares received from X Ltd. can be distributed among the partners in their profit sharing ratio i.e. ₹ 2,79,000 x  $\frac{1}{2} = ₹$  1,39,500 each. In that case, firm will pay cash amounting ₹ 27,965 to A and will receive cash ₹ 22,035 from B.

## 3.4 Advanced Accounting

## Answer

**Garner vs. Murray rule:** When a partner is unable to pay his debt due to the firm, he is said to be insolvent and the share of loss is to be borne by other solvent partners in accordance with the decision held in the English case of Garner vs. Murray. According to this decision, normal loss on realisation of assets is to be brought in cash by all partners (including insolvent partner) in the profit sharing ratio but a loss due to insolvency of a partner has to be borne by the solvent partners in their capital ratio. In order to calculate the capital ratio, no adjustment will be made in case of fixed capitals. However, in case of fluctuating capitals, ratio should be calculated on the basis of adjusted capital before considering profit or loss on realization at the time of dissolution.

## Non-Applicability of Garner vs Murray rule:

1. When the solvent partner has a debit balance in the capital account.

Only solvent partners will bear the loss of capital deficiency of insolvent partner in their capital ratio. If incidentally a solvent partner has a debit balance in his capital account, he will escape the liability to bear the loss due to insolvency of another partner.

- 2. When the firm has only two partners.
- 3. When there is an agreement between the partners to share the deficiency in capital account of insolvent partner.
- 4. When all the partners of the firm are insolvent.

## **Question 3**

*P*, Q and R are partners sharing profits and losses in the ratio of 2 : 2 : 1. Their Balance Sheet as on  $31^{st}$  March, 2009 is as follows:

| Liabilities       |          | ₹               | Assets            | ₹               |

They decided to dissolve the firm. The following are the amounts realized from the assets:

|                     | ₹        |
|---------------------|----------|
| Plant and Machinery | 1,02,000 |
| Fixtures            | 18,000   |
| Stock               | 84,000   |
| Sundry debtors      | 44,400   |

Creditors allowed a discount of 5% and realization expenses amounted to  $\mathcal{T}$  1,500. A bill for  $\mathcal{T}$  4,200 due for sales tax was received during the course of realization and this was also paid.

You are required to prepare:

- (a) Realization account
- (b) Partners' capital accounts
- (c) Cash account.

#### Question 4

What is Piecemeal Payments method under partnership dissolution? Briefly explain the two methods followed for determining the order in which the payments are made?

(2 Marks, May, 2010) (IPCC)

#### Answer

Generally, the assets sold upon dissolution of partnership are realised only in small instalments over a period of time. In such circumstances the choice is either to distribute whatever is collected or to wait till whole amount is collected. Usually, the first course is adopted. In order to ensure that the distributed cash amongst the partners is in proportion to their interest in the partnership concern either of the two methods described below may be followed for determining the order in which the payment should be made:

- (1) *Maximum Loss Method:* Each instalment realised is considered to be the final payment i.e. outstanding assets and claims are considered worthless and partners' accounts are adjusted on that basis each time when a deposit is made following either Garner Vs. Murray rule or the profit sharing ratio rule.
- (ii) *Highest Relative Capital Method:* According to this method, the partner who has the higher relative capital, that is, whose capital is greater in proportion to his profit sharing ratio is first paid off. This method is also called as proportionate capital method.

#### **Question 5**

*A*, *B*, *C* and *D* are sharing profits and losses in the ratio 5 : 5 : 4 : 2. Frauds committed by C during the year were found out and it was decided to dissolve the partnership on 31<sup>st</sup> March, 2012 when their Balance Sheet was as under :

| Liabilities | Amount (₹) | Assets   | Amount (₹) |
|-------------|------------|----------|------------|
| Capital     |            | Building | 1,20,000   |

|                 | <u>3,06,000</u> |             | <u>3,06,000</u> |

Following information is given to you:

- (i) A cheque for ₹ 4,300 received from debtor was not recorded in the books and was misappropriated by C.
- (ii) Investments costing ₹ 5,400 were sold by C at ₹ 7,900 and the funds transferred to his personal account. This sale was omitted from the firm's books.
- (iii) A creditor agreed to take over investments of the book value of ₹ 5,400 at ₹ 8,400. The rest of the creditors were paid off at a discount of 2%.
- (iv) The other assets realized as follows:

| Building    | 105% of book value   |
|-------------|--|
| Stock       | ₹ 78,000   |
| Investments | The rest of investments were sold at a profit of ₹4,800    |
| Debtors     | The rest of the debtors were realized at a discount of 12% |

- (v) The bills payable were settled at a discount of ₹ 400.
- (vi) The expenses of dissolution amounted to ₹ 4,900
- (vii) It was found out that realization from C's private assets would only be  $\gtrless$  4,000.

#### **Cash Account**

#### Working Note:

As per Garner Vs. Murray rule, solvent partners have to bear the loss due to insolvency of a partner in their capital ratio.

#### **Calculation of Capital Ratio of Solvent Partners**

|                      | Р        | Q               | S        |
|----------------------|----------|-----------------|----------|
|                      | (₹)      | (₹)             | (₹)      |
| Opening capital      | 1,68,000 | 1,08,000        | (18,000) |
| Add: General reserve | 38,000   | 28,500          | 9,500    |
| Capital reserve      | 10,000   | 7,500           | 2,500    |
|                      | 2,16,000 | <u>1,44,000</u> | (6,000)  |

Though S is a solvent partner yet he cannot be called upon to bear loss on account of insolvency of R because his capital account has a debit balance.

Therefore, capital ratio of P & Q = 216 : 144 = 3 : 2

Deficiency of R = ₹ {(25,000 + 20,060) - (19,000 + 5,000)} = ₹ 45,060 - ₹ 24,000 = ₹ 21,060. Deficiency of R will be shared by P & Q in the capital ratio of 3 : 2 i.e.

> P = ₹ 21,060 X 3/5 = ₹ 12,636 Q = ₹ 21,060 X 2/5 = ₹ 8,424

#### **Question 7**

Ajay Enterprises, a Partnership firm in which A, B and C are three partners sharing profits and losses in the ratio of 4 : 3 : 3. The balance sheet of the firm as on 31<sup>st</sup> December, 2011 is as below:

| Liabilities      | ₹             | Assets            | ₹             |
|------------------|---------------|-------------------|---------------|
| A' s Capital     | 15,000        | Factory Building  | 24,160        |
| B' s Capital     | 7,500         | Plant & Machinery | 16,275        |
| C' s Capital     | 15,000        | Debtors           | 5,400         |
| B' s Loan A/c    | 4,500         | Stock             | 12,390        |
| Sundry creditors | <u>16,500</u> | Cash at Bank      | 275           |
|                  | <u>58,500</u> |                   | <u>58,500</u> |

On balance sheet date all the three partners have decided to dissolve their partnership. Since the realization of assets was protracted, they decided to distribute amounts as and when feasible and for this purpose they appoint C who was to get as his remunerations 1% of the value of the assets realized other than cash at Bank and 10% of the amount distributed to the partners.

Assets were realized piece-meal as under:

|  | ₹      |
|--|--------|
| First instalment   | 18,650 |
| Second instalment  | 17,320 |
| Third instalment   | 10,000 |
| Last instalment  | 7,000  |
| Dissolution expenses were provided for estimated amount of | 3,000  |
| The creditors were settled finally for                     | 15,900 |

Prepare a statement showing distribution of cash amongst the partners by 'Highest Relative capital method'. (16 Marks, May 2012) (IPCC)

#### **Question 9**

W paid a premium to other partners of the firm at the time of his admission to the firm, with a condition that the business will not be dissolved before expiry of five years. The firm is dissolved after three years. W claims refund of premium.

- (i) List the criteria for the calculation of the amount of refund.
- (ii) Also list any two conditions when no claim in this respect will arise.

(4 Marks, IPCC, May, 2014)

#### Answer

If the firm is dissolved before the term expires, as is the case, W being a partner who has paid premium on admission will have to be repaid / refunded

The criteria for calculation of refund amount are:

- (i) Terms upon which admission was made,
- (ii) The time period for which it was agreed that the firm will not be dissolved,
- (iii) The time period for which the firm has already been in existence.

No claim for refund will arise if:

- (i) The firm is dissolved due to death of a partner,
- (ii) If the dissolution of the firm is basically because of misconduct of W,
- (iii) If the dissolution is through an agreement and such agreement does not have a stipulation for refund of premium.

The operations of the business were carried on till 30.06.2014. P and Q both withdrew in equal amount half the amount of profit made during the current period of six months after charging depreciation at 10% per annum on plant and after writing off 5% on building.

During the current period of six months, creditors were reduced by ₹ 20,000 and bank overdraft by ₹ 5,000.

The joint life policy was surrendered for  $\mathcal{F}$  6,000 before 30<sup>th</sup> June 2014. Stock was valued at  $\mathcal{F}$  84,000 and debtors at  $\mathcal{F}$  68,000 on 30<sup>th</sup> June 2014. The other items remained the same as at 31.12.2013.

On 30.06.2014, the firm sold its business to PQ Ltd. The value of goodwill was estimated at ₹ 1,30,000 and the remaining assets were valued on the basis of the balance sheet as on 30.06.2014.

PQ Ltd. paid the purchase consideration in equity shares of ₹10 each.

You are required to prepare:

- (a) Balance sheet of the firm as at 30.06.2014,
- (b) Realisation account,
- (c) Partners' Capital Accounts showing the final settlement between them.

|                   |                 | <u>18,40,000</u> |                   | <u>18,40,000</u> |

The operations of the business were carried on till 30<sup>th</sup> September, 2008. S and T both withdrew in equal amounts half the amount of profits made during the current period of 6 months after 10% per annum had been written off on building and plant and 5% per annum written off on furniture. During the current period of 6 months, creditors were reduced by ₹50,000, Bills payable by ₹11,500 and Bank overdraft by ₹75,000. The Joint Life policy was surrendered for ₹47,500 on 30<sup>th</sup> September, 2008. Stock was valued at ₹3,17,000 and debtors at ₹3,25,000 on 30<sup>th</sup> September, 2008. The other items remained the same as on 31<sup>st</sup> March, 2008.

On  $30^{th}$  September, 2008 the firm sold its business to ST Ltd. The value of goodwill was estimated at ₹ 5,40,000 and the remaining assets were valued on the basis of the Balance Sheet as on  $30^{th}$  September, 2008. The ST Ltd. paid the purchase consideration in equity shares of ₹ 10 each. You are required to prepare a Realization Account and Capital accounts of the partners. (8 Marks, November, 2008) (PCC)

Since drawings are half of profits therefore, actual profit earned is ₹ 40,000 x 2 = ₹ 80,000 (shared equally by partners S and T).

Half of the profits, has been withdrawn by both the partners equally i.e. drawings  $\notin$  40,000 ( $\notin$  80,000 x  $\frac{1}{2}$ ) withdrawn by S and T in 1:1 (i.e.  $\notin$  20,000 each).

|     | Total assets (W.N.1)                                  | 17,43,500 |
|     | Add: Goodwill   | 5,40,000  |
|     |   | 22,83,500 |
|     | <i>Less:</i> Liabilities (2,77,500 + 51,000 + 75,000) | 4,03,500  |
|     | Purchase consideration                                | 18,80,000 |

**Note:** The above solution is given on the basis that reduction in bank overdraft is after surrender of Joint life policy.

The amalgamated firm took over the business on the following terms:

- (a) Building of P & Co. was valued at  $\gtrless$  1,00,000.
- (b) Plant and machinery of P & Co. was valued at ₹ 2,50,000 and that of R & Co. at ₹ 2,00,000.
- (c) All stock in trade is to be appreciated by 20%.
- (d) Goodwill valued of P & Co. at ₹1,20,000 and R & Co. at ₹60,000, but the same will not appear in the books of PQR & Co.
- (e) Partners of new firm will bring the necessary cash to pay other partners to adjust their capitals according to the profit sharing ratio.
- (f) Provisions for doubtful debts has to be carried forward at ₹ 12,000 in respect of debtors of P & Co. and ₹ 26,000 in respect of debtors of R & Co.

You are required to prepare the Balance Sheet of new firm and capital accounts of the partners in the books of old firms. (16 Marks, May, 2010) (IPCC)

#### 3.40 Advanced Accounting

The amalgamated firm took over the business on the following terms:

- (a) Building was taken over at ₹ 1,00,000 and ₹ 1,25,000 of AB & Co. and CD & Co. respectively. And machinery was taken over at ₹ 1,25,000 and ₹ 1,10,000 of AB & Co. and CD & Co. respectively.
- (b) Goodwill of AB & Co. was worth ₹ 75,000 and that of CD & Co. was worth ₹ 50,000. Goodwill account was not to be opened in the books of the new firm, the adjustments being recorded through capital accounts of the partners.
- (c) Provision for doubtful debts has to be carried forward at ₹ 5,000 in respect of debtors of AB & Co. and ₹ 8,000 in respect of CD & Co.

You are required:

- *(i)* Compute the adjustments necessary for goodwill.
- (ii) Pass the Journal Entries in the books of AD & Co. assuming that excess/deficit capital (taking D's capital as base) with reference to share in profits are to be transferred to current accounts.

## **Question 7**

*P*, Q and R are partners sharing profits and losses in the ratio 3 : 2 : 1 after allowing interest on capital @ 9% p.a. Their Balance Sheet as at 31st March, 2012 are as follows:

| Liabilities       | ₹        | Assets            | ₹        |
|-------------------|----------|-------------------|----------|
| Capital Accounts: |          | Plant & Machinery | 1,08,000 |

| Q 30,000          |          | Stock             | 50,000   |
| R <u>20,000</u>   | 1,00,000 | Sundry Debtors    | 30,000   |
| Reserve Fund      | 60,000   |                   |          |
| Creditors         | 48,000   |                   |          |
|                   |          |                   |          |
|                   | 2,08,000 |                   | 2,08,000 |

They applied for conversion of the firm into a Private Limited Company named PQR Pvt. Ltd. and the certificate was received on 01-04-2012. They decided to maintain same profit sharing ratio and to preserve the priority in regard to repayment of capital as far as possible. For that purpose, they decided to insert a clause of issuance of Preference shares in Memorandum of Association in addition to issuance of Equity shares of  $\gtrless 10$  each.

On 01-04-2012, the value of goodwill is to be determined on the basis of 2 years' purchase of the average profit from the business of the last 5 years. The particulars of profits are as under:

|                       |        | ₹      |
|-----------------------|--------|--------|
| Year ended 31.03.2008 | Profit | 10,000 |
| Year ended 31.03.2009 | Loss   | 5,000  |

## 3.44 Advanced Accounting

| Year ended 31.03.2010 | Profit | 18,000 |
|-----------------------|--------|--------|
| Year ended 31.03.2011 | Profit | 27,000 |
| Year ended 31.03.2012 | Profit | 30,000 |

The loss for the year ended 31-03-2009 was on account of loss by strike to the extent of 10,000.

It was agreed that rest of the assets are valued on the basis of the Balance Sheet as at 31-03-2012 except Plant & Machinery which is valued at ₹ 1,02,000.

You are required to prepare (a) the Balance Sheet of the Company as at 01-04-2012, (b) Partners' Capital Accounts and (c) Statement showing the final settlement between the partners taking Q's capital as basis. (16 Marks, November 2012) (IPCC)

## 3.46 Advanced Accounting

Taking Q's capital as Basis, both P and R have ₹ 5,000 each as excess in their capital account balances. Since interest on capital is meant to compensate those whose capital is in excess of proportionate limits and since in the case of partners it is an appropriation of profit, it will be proper to give 9% preference shares to P and R for ₹ 5,000 each and the remaining amount of ₹ 1,80,000 in the form of Equity Shares to be divided among P, Q and R in the ratio 3:2:1. They will then share the company's profit in the ratio 3:2:1 after allowing preference dividend.

## Unit 1: ESOPs and Buy-back of Shares

## Question1

Explain "Employee's stock option plan".

(2 Marks, November, 2009) (IPCC)

#### Answer

"Employee Stock Option Plan" is a plan in which option is given for a specified period, to employees of a company, which gives such directors, officers or employees the right, but not the obligation, to purchase or subscribe to, the shares of the enterprise at a fixed or predetermined price generally below the prevailing market price.

#### Answer

Determination of Buy back of maximum no. of shares as per the Companies Act, 2013

1. Shares Outstanding Test

| Particulars                   | (Shares) |
|-------------------------------|----------|
| Number of shares outstanding  | 1,25,000 |
| 25% of the shares outstanding | 31,250   |

2. Resources Test: Maximum permitted limit 25% of Equity paid up capital + Free Reserves

| Particulars  |                  |
|--|------------------|
| Paid up capital ( ₹)                                 | 12,50,000        |
| Free reserves ( ₹) (15,00,000 + 2,50,000 + 1,25,000) | <u>18,75,000</u> |
| Shareholders' funds ( ₹)                             | <u>31,25,000</u> |
| 25% of Shareholders fund ( ₹)                        | 7,81,250         |
| Buy back price per share                             | ₹ 20             |
| Number of shares that can be bought back (shares)    | 39,062           |
| Actual Number of shares for buy back                 | 25,000           |

## 3. Debt Equity Ratio Test: Loans cannot be in excess of twice the Equity Funds post Buy Back

|     | Particulars   | ₹          |
|-----|---|------------|
| (a) | Loan funds ( ₹) (18,75,000+10,00,000+16,50,000)                       | 45,25,000  |
| (b) | Minimum equity to be maintained after buy back in the ratio of 2:1    |            |
|     | (₹) (a/2)   | 22,62,500  |
| (c) | Present equity/shareholders fund (₹)                                  | 31,25,000  |
| (d) | Future equity/shareholders fund (₹) (see W.N.) (31,25,000 – 2,87,500) | 28,37,500* |

<sup>\*</sup> As per Section 68 (2) (d) of the Companies Act 2013, the ratio of debt owed by the company should not be more than twice the capital and its free reserves after such buy-back. Further under Section 69 (1), on buy-back of shares out of free reserves a sum equal to the nominal value of the share bought back shall be transferred to Capital Redemption Reserve (CRR). As per section 69 (2) utilization of CRR is restricted to fully paying up unissued shares of the Company which are to be issued as fully paid-up bonus shares only. It means CRR is not available for distribution as dividend. Hence, CRR is not a free reserve. Therefore, for calculation of future equity i.e. share capital and free reserves, amount transferred to CRR on buy-back has to be excluded from the present equity.

| (e) Maximum permitted buy back of Equity (₹) [(d) – (b)] |  |        |
|--|--|--------|
| (f)  | Maximum number of shares that can be bought back @ | 28,750 |
|  | ₹ 20 per share                                     | shares |

Summary statement determining the maximum number of shares to be bought back

| Particulars   | Number of shares |
|---|------------------|
| Shares Outstanding Test   | 31,250           |
| Resources Test  | 39,062           |
| Debt Equity Ratio Test  | 28,750           |
| Maximum number of shares that can be bought back [least of the above] | 28,750           |

Company qualifies all tests for buy-back of shares and came to the conclusion that it can buy maximum 28,750 shares on 1st April, 2012.

However, company wants to buy-back only 25,000 equity shares @  $\gtrless$  20. Therefore, buy-back of 25,000 shares, as desired by the company is within the provisions of the Companies Act, 2013.

#### **Working Note**

Amount transferred to CRR and maximum equity to be bought back will be calculated by simultaneous equation method.

Suppose amount transferred to CRR account is 'x' and maximum permitted buy-back of equity is 'y'.

Then

$$(31,25,000 - x) - 22,62,500 = y$$
 (1)

$$\left(\frac{y}{20} \times 10\right) = x \qquad \text{Or} \qquad 2x = y \qquad (2)$$

by solving the above equation we get

## **Question 7**

On 1<sup>st</sup> April, 2012, a company offered 100 shares to each of its 400 employees at ₹ 25 per share. The employees are given a month to accept the shares. The shares issued under the plan shall be subject to lock-in to transfer for three years from the grant date i.e. 30, April 2012. The market price of shares of the company on the grant date is ₹ 30 per share. Due to post-vesting restrictions on transfer, the fair value of shares issued under the plan is estimated at ₹ 28 per share.

Up to 30<sup>th</sup> April, 2012, 50% of employees accepted the offer and paid ₹ 25 per share purchased. Normal value of each share is ₹ 10. Record the issue of shares in the books of the company under the aforesaid plan. (4 Marks, May 2012) (IPCC)

#### Answer

Fair value of an option = ₹ 28

Difference between Fair value and Issue Price =₹ 28 – ₹ 25 = 3.

Number of employees accepting the offer = 400 employees x 50% = 200 employees

Number of shares issued = 200 employees x 100 shares/employee = 20,000 shares

Employee Compensation Expenses recognized in 2012-13 =20,000 shares x ₹ 3 = ₹ 60,000

Securities Premium A/c = ₹ 28 – 10 = ₹ 18 per share = 20,000 x 18 = ₹ 3,60,000

**Note**: In the given solution, it is assumed that buy-back of shares has been done out of the proceeds of issue of preference shares, no amount is transferred to capital redemption reserve for buy-back. However, if it is assumed that buy-back is from sale of investments and not from the proceeds of issue of preference shares, then, amount of revenue reserves transferred to capital redemption reserve will be ₹ 2,600 instead of ₹ 2,000.

## **Question 9**

State the conditions of issuance of Sweat Equity Shares by Joint Stock Companies.

(4 Marks, November 2012) (IPCC)

## Answer

A company may issue sweat equity shares of a class of shares already issued, if the following conditions are fulfilled, namely:-

## 4.18 Advanced Accounting

- (i) the issue of sweat equity shares is authorised by a special resolution passed by the company in the general meeting.
- (ii) the resolution specifies the number of shares, current market price, the consideration if any, and the class or classes of directors or employees to whom such equity shares are to be issued.
- (iii) not less than one year has, at the time of the issue, elapsed since the date on which the company was entitled to commence business.
- (iv) the sweat equity shares of company, whose equity shares are listed on a recognised stock exchange, are issued in accordance with the regulations made by the Securities and Exchange Board of India (SEBI) in this behalf. But in the case of company whose equity shares are not listed on any recognised stock exchange, the sweat equity shares are issued in accordance with the rules as may be prescribed.

## **Question 11**

Give four conditions to be fulfilled by a Joint Stock Company to buy back its equity Shares.

(4 Marks, May, 2014)

## Answer

Section 68 to 70 of the Companies Act, 2013 lays down the provisions for a company to buy-back its own equity shares. The key provisions in this regard are as under:

- (a) A company may purchase its own shares or other specified securities out of:
  - (i) Its free reserves;
  - (ii) The securities premium account;
  - (iii) The proceeds of the issue of any shares or other specified securities (not being the proceeds of an earlier issue of the same kind of shares or other specified securities).
- (b) The buy-back is authorized by its articles.
- (c) A special resolution\* has been passed in general meeting of the company authorising the buy-back (except where the buy back is of less than 10% of the paid up equity capital and free reserves of the company and the buy back is authorized by the Board by means of a resolution passed at a duly convened Board Meeting)
- (c) The buy-back does not exceed 25% of the total paid up capital and free reserves of the company. Provided that in case of buy back of equity shares in any financial year, the 25% of paid up capital shall be construed as 25% of the total paid up equity capital in that financial year.
- (d) The ratio of the secured and unsecured debt owed by the company after the buy back is not more than twice the paid up capital and its free reserves.
- (e) All the shares and other securities for buy-back are fully paid up.
- (f) The buy-back is completed within 12 months of the passing of the special resolution or a resolution passed by the Board.
- (g) The buy-back of the shares listed on any recognized stock exchange is in accordance with the regulations made by the SEBI in this behalf.
- (h) Before making such buy-back, a listed company has to file with the Registrar and the SEBI a declaration of solvency in the prescribed form.
- (i) The buy back may be from
  - (i) the existing shareholders or security holders on proportionate basis;

<sup>\*</sup> If the buy-back by the company is or less than 10% of the total paid-up equity capital and free reserves of the company then it can be authorised by the Board by means of resolution passed at its meeting and no special resolution will be required.

- (ii) the open market;
- (iii) the shares or securities issued to the employees of the company pursuant to a scheme of Stock Option or Sweat Equity.
- (j) Where a company purchases its own shares out of its free reserves or securities premium account it shall transfer an amount equal to the nominal value of such shares to Capital Redemption Reserve Account and details of such transfers should be given in the Balance Sheet.

## **Question 12**

X Ltd. granted 500 stock options to its employees on 1.4.2011 at  $\gtrless$  50 per share. The vesting period is 2½ years and the maximum exercise period is one year. Market price on that date is  $\gtrless$  140 per share. All the options were exercised on 30.06.2014. Pass journal entries giving suitable narrations, if the face value of equity share is  $\gtrless$  10 per share. (8 Marks, November, 2014)

2. Employees compensation expense has been written off during  $2\frac{1}{2}$  years on straight line basis as under:

lst Year = ₹ 18,000 (for full year)

IInd Year = ₹ 18,000 (for full year)

IIIrd Year = ₹ 9,000 (for half year)

#### **Unit 2: Underwriting of Shares**

#### **Question 1**

Scorpio Ltd. came out with an issue of 45,00,000 equity shares of  $\gtrless$  10 each at a premium of  $\end{Bmatrix}$  2 per share. The promoters took 20% of the issue and the balance was offered to the public. The issue was equally underwritten by A & Co; B & Co. and C & Co.

Each underwriter took firm underwriting of 1,00,000 shares each. Subscriptions for 31,00,000 equity shares were received with marked forms for the underwriters as given below:

| A & Co. |       | 7,25,000 shares          |
|---------|-------|--------------------------|
| В & Со. |       | 8,40,000 shares          |
| С & Со. |       | <u>13,10,000 </u> shares |
|         | Total | <u>28,75,000 </u> shares |

The underwriters are eligible for a commission of 5% on face value of shares. The entire amount towards shares subscription has to be paid alongwith application. You are required to:

- (a) Compute the underwriters liability (number of shares)
- (b) Compute the amounts payable or due to underwriters; and
- (c) Pass necessary journal entries in the books of Scorpio Ltd. relating to underwriting.

(16 Marks, November 2005)(PE-II)

#### Answer

## (a) Computation of liabilities of underwriters (No. of shares):

|   | A & Co.         | В & Со.         | C & Co.          |
|---|-----------------|-----------------|------------------|

#### **Question 2**

What do you understand by the term 'Firm Underwriting'? (2 Marks, November, 2007)(PCC)

#### Answer

'Firm underwriting' signifies a definite commitment by an underwriter to take up a specified number of shares irrespective of the number of shares subscribed for by the public. In such a case, unless it has been otherwise agreed, the underwriter's liability is determined without taking into account the number of shares taken up 'firm' by him, i.e. the underwriter is obliged to take up:

1. the number of shares he has applied as 'firm'; and

2. the number of shares he is obliged to take up on the basis of the underwriting agreement.

# **Question 5**

A company entered into an underwriting agreement with Mr. B for 60% of the issue of ₹ 50,00,000, 15% debentures, with a firm underwriting of ₹5,00,000. Marked applications were in respect of debentures worth ₹35,00,000. Compute liability of Mr. B and commission payable to him. (2 Marks, June, 2009) (PCC)

<sup>\*48,50,000</sup> shares - (12,00,000 + 25,00,000 + 8,50,000) = 3,00,000 shares.

<sup>\*</sup> Total Unmarked applications = Total applications received – Total marked applications i.e. 44,800 – 25,000 = 19,800 unmarked applications.

# **Question 9**

A company issued 1,50,000 shares of  $\mathcal{T}$ 10 each at a premium of  $\mathcal{T}$ 10. The entire issue was underwritten as follows:

- X 90000 shares (Firm underwriting 12000 shares)
- Y 37500 shares (Firm underwriting 4500 shares)
- Z 22500 shares (Firm underwriting 15000 shares)

Total subscriptions received by the company (excluding firm underwriting and marked applications) were 22500 shares.

The marked applications (excluding firm underwriting) were as follows:

- X 15000 shares
- Y 30000 shares
- Z 7500 shares

Commission payable to underwriters is at 5% of the issue price. The underwriting contract provides that credit for unmarked applications be given to the underwriters in proportion to the shares underwritten and benefit of firm underwriting is to be given to individual underwriters.

- (i) Determine the liability of each underwriter (number of shares);
- (ii) Compute the amounts payable or due from underwriters; and
- (iii) Pass Journal Entries in the books of the company relating to underwriting.

At the General Meeting it was resolved to:

- 1. Pay proposed dividend of 10% in cash.
- 2. Give existing shareholders the option to purchase one share of ₹ 10 each at ₹ 15 for every five shares held. This option was taken up by all the shareholders.
- 3. Redeem the debentures at a premium of 5% and also confer option to the debentureholders to convert 50% of their holding into equity shares at a predetermined price of ₹15 per share and balance payment to be made in cash.

Holders of 3,000 debentures opted to get their debentures redeemed in cash only while the rest opted for getting the same converted into equity shares as per the terms of issue. Debenture redemption fund investment realized  $\notin$  1,80,000 on sales.

You are required to redraft the Balance Sheet after giving effects to the right issue and redemption of debentures. Also show the calculations in respect of number of equity shares issued and cash payment. (16 Marks, November, 2009) (IPCC)

(b) The summarized Balance Sheet of Entyce Ltd. as on 31<sup>st</sup> March, 2013 read as under:

|   | ₹           |
|---|-------------|
| Liabilities:  |             |
| Share Capital: 4,00,000 equity shares of ₹10 each fully paid up | 40,00,000   |
| General Reserve   | 50,00,000   |
| Debenture Redemption Reserve                                    | 35,00,000   |
| 12% Convertible Debentures : 80,000 Debentures of ₹100 each     | 80,00,000   |
| Other Loans   | 45,00,000   |
| Current Liabilities and Provisions                              | 90,00,000   |
|   | 3,40,00,000 |
| Assets:   |             |
| Fixed Assets (at cost less depreciation)                        | 1,50,00,000 |

| Cash and Bank Balances  | 40,00,000   |
| Other Current Assets  | 1,20,00,000 |
|   | 3,40,00,000 |

The debentures are due for redemption on 1<sup>st</sup> April, 2013. The terms of issue of debentures provided that they were redeemable at a premium 5% and also conferred option to the debentureholders to convert 25% of their holding into equity shares at a predetermined price of ₹11.90 per share and the balance payment in cash.

Assuming that:

- (i) Except for debentureholders holding 12,000 debentures in aggregate, rest of them exercised the option for maximum conversion,
- (ii) The investments realized ₹32,00,000 on sale,
- (iii) All the transactions were taken place on 1st April, 2013 without any lag, and
- (iv) Premium on redemption of debentures is to be adjusted against General Reserve.

Redraft the Balance Sheet of Entyce Ltd. as on 01.04.2013 after giving effect to the redemption. Show your calculations in respect of the number of equity shares to be allotted and the cash payment necessary. (8 Marks, November 2013) (IPCC)

# Answer

# (i) Purchase consideration

|   | ₹   |
|---|---|
| Fixed assets                              | 12,80,000                                       |
| Stock                                     | 7,70,000  |
| Bills receivable                          | 30,000  |
| Purchase consideration                    | <u>20,80,000</u>                                |
| Amount discharged by issue of preference  | e shares = ₹ 5,10,000                           |
| No. of preference shares to be allotted   | $= \frac{5,10,000}{100} = 5,100 \text{ shares}$ |
| Amount discharged by allotment of equity  | shares = ₹ 20,80,000 - ₹ 5,10,000               |
|   | = ₹ 15,70,000                                   |
| Paid up value of equity share             | = ₹ 8   |
| Hence, number of equity shares to be issu | ued = $\frac{15,70,000}{8}$ = 1,96,250 shares   |

On 1.4.2005, Max Ltd. adopted the following scheme of reconstruction:

- (i) Each equity share shall be sub-divided into 10 equity shares of ₹10 each fully paid up. 50% of the equity share capital would be surrendered to the Company.
- (ii) Preference dividends are in arrear for 3 years. Preference shareholders agreed to waive 90% of the dividend claim and accept payment for the balance.

#### 4.56 Advanced Accounting

- (iii) Own debentures of ₹ 80,000 were sold at ₹ 98 cum-interest and remaining own debentures were cancelled.
- (iv) Debentureholders of ₹ 2,80,000 agreed to accept one machinery of book value of ₹ 3,00,000 in full settlement.
- (v) Creditors, debtors and stocks were valued at ₹ 3,50,000, ₹ 5,90,000 and ₹ 3,60,000 respectively. The goodwill, discount on issue of debentures and Profit and Loss (Dr.) are to be written off.
- (vi) The Company paid ₹15,000 as penalty to avoid capital commitments of ₹3,00,000.

On 2.4.2005 a scheme of absorption was adopted. Max Ltd. would take over Mini Ltd. The purchase consideration was fixed as below:

- (a) Equity shareholders of Mini Ltd. will be given 50 equity shares of ₹10 each fully paid up, in exchange for every 5 shares held in Mini Ltd.
- (b) Issue of 9% preference shares of ₹ 100 each in the ratio of 4 preference shares of Max Ltd. for every 5 preference shares held in Mini Ltd.
- (c) Issue of one 12% debenture of ₹100 each of Max Ltd. for every 12% debentures in Mini Ltd.

You are required to give Journal entries in the books of Max Ltd. and draw the resultant Balance Sheet as at 2nd April, 2005. (20 Marks, November 2005) (PE-II)

## Working Note:

1. Arrear dividend to Preference Shareholders

Preference Share Capital ₹ 500,000 @ 9% will yield dividend of ₹ 45,000/- per year and for 3 years = ₹ 1,35,000/-. Out of this only 10% is paid and the balance is waived off. Hence,

amount paid = ₹ 13,500/-

2. Profit on redemption of own debentures

Own Debentures with Nominal Value of ₹ 80,000 sold for ₹ 98 per deb = 80,000 \* 98/100 = ₹ 78,400/-.

Book Value = ₹ 1,92,000/ 2,00,000 X 80,000 = ₹ 76,800/-. Profit on own debentures sold = ₹ 78,400 – ₹ 76,800 = ₹ 1,600

Balance Own Debentures = ₹ 1,92,000 – 76,800 = ₹ 1,15,200 which are cancelled

3. Purchase Consideration

| Equity share capital 10,000 $\times \frac{50}{5} \times \gtrless$ 10 | = 10,00,000        |
|--|--------------------|
| 9% Preference share capital 4,000 $\times \frac{4}{5} \times 100$    | = 3,20,000         |
|  | ₹ <u>13,20,000</u> |

### **Question 3**

*P* and *Q* have been carrying on same business independently. Due to competition in the market, they decided to amalgamate and form a new company called PQ Ltd.

Following is the Balance Sheet of P and Q as at 31.3.2007:

| Liabilities         | Р                | Q                | Assets            | Р                | Q                |

Following are the additional information:

- (i) The authorised capital of the new company will be ₹ 25,00,000 divided into 1,00,000 equity shares of ₹ 25 each.
- Liabilities of P includes ₹ 50,000 due to Q for the purchases made. Q made a profit of 20% on sale to P.
- (iii) P has goods purchased from Q, cost to him ₹ 10,000. This is included in the Current asset of P as at 31<sup>st</sup> March, 2007.
- (iv) The assets of P and Q are to be revalued as under:

|                     | Р        | Q        |
|---------------------|----------|----------|
|                     | ₹        | ₹        |
| Plant and machinery | 5,25,000 | 6,75,000 |
| Building            | 7,75,000 | 6,48,000 |

- (v) The purchase consideration is to be discharged as under:
  - (a) Issue 24,000 equity shares of ₹ 25 each fully paid up in the proportion of their profitability in the preceding 2 years.
  - (b) Profits for the preceding 2 years are given below:

|                       | Р               | Q               |
|-----------------------|-----------------|-----------------|
|                       | ₹               | ₹               |
| 1 <sup>st</sup> year  | 2,62,800        | 2,75,125        |
| ll <sup>nd</sup> year | <u>2,12,200</u> | <u>2,49,875</u> |
| Total                 | <u>4,75,000</u> | <u>5,25,000</u> |

(c) Issue 12% preference shares of ₹10 each fully paid up at par to provide income equivalent to 8% return on capital employed in the business as on 31.3.2007 after revaluation of assets of P and Q respectively.

You are required to:

- (i) Compute the amount of equity and preference shares issued to P and Q.
- (ii) Prepare the Balance Sheet of P & Q Ltd. immediately after amalgamation.

(16 Marks, May, 2007)(PCC)

#### Answer

#### (i) Calculation of amount of equity shares issued to P and Q

| Profits of            | Р               | Q               |
|-----------------------|-----------------|-----------------|
|                       | ₹               | ₹               |
| I <sup>st</sup> year  | 2,62,800        | 2,75,125        |
| II <sup>nd</sup> year | <u>2,12,200</u> | <u>2,49,875</u> |
| Total                 | <u>4,75,000</u> | <u>5,25,000</u> |

No. of shares to be issued = 24,000 equity shares in the proportion of the preceding 2 years' profitability

| 24,000 x 475/1000 | 11,400 equity shares |                      |
|-------------------|----------------------|----------------------|
| 24,000 x 525/1000 |                      | 12,600 equity shares |

### Working Note:

Cash at bank = Opening balance + 11% Debentures issued – Bank overdraft paid = ₹ 10,000 + ₹ 3,00,000 - ₹ 1,50,000 = ₹ 1,60,000

### **Question 5**

What are the two main methods of accounting for amalgamation of companies?

(2 Marks, November, 2007) (PCC)

#### Answer

Two main methods of accounting for amalgamations are

- (i) The Pooling of Interests method- Under this method, the assets, liabilities and reserves of the transferor company are recorded by the transferee company at their existing carrying amounts after making the adjustments required in para 11 of AS 14.
- (ii) The Purchase method- Under this method, the transferee company accounts for the amalgamation either by incorporating the assets and liabilities at their existing carrying amounts or on the basis of their fair values at the date of amalgamation.

|  | <u>18,28,000</u> |   | <u>18,28,000</u> |

Note: The arrear of preference dividends amount to ₹51,200.

A scheme of reconstruction was duly approved with effect from 1st April, 2008 under the conditions stated below:

- (a) The unpaid amount on the equity shares would be called up.
- (b) The preference shareholders would forego their arrear dividends. In addition, they would accept a reduction of ₹2.5 per share. The dividend rate would be enhanced to 10%.
- (c) The equity shareholders would accept a reduction of ₹7.5 per share.
- (d) R Ltd. holds 21,600 shares in Q Ltd. This represents 15% of the share capital of that company. Q Ltd. is not a quoted company. The average net profit (after tax) of the company is ₹2,50,000. The shares would be valued based on 12% capitalization rate.
- (e) A bad debt provision at 2% would be created.
- (f) The other assets would be valued as under:

|                   | ₹        |
|-------------------|----------|
| Intangibles       | 48,000   |
| Plant             | 1,40,000 |
| Freehold premises | 3,80,000 |
| Stocks            | 2,50,000 |

(g) The profit and loss account debit balance and the balance standing to the debit of the deferred revenue expenditure account would be eliminated.

#### 4.74 Advanced Accounting

- (h) The directors would have to take equity shares at the new face value of ₹ 2.5 share in settlement of their loan.
- (i) The equity shareholders, including the directors, who would receive equity shares in settlement of their loans, would take up two new equity shares for every one held.
- (j) The preference shareholders would take up one new preference share for every four held.
- (k) The authorised share capital would be restated to ₹14,00,000.
- (I) The new face values of the shares-preferences and equity will be maintained at their reduced levels.

You are required to prepare:

- (i) Necessary ledger accounts to effect the above; and
- (ii) The Balance Sheet of the company after reconstruction. (16 Marks, November, 2008) (PCC)

Due to heavy losses and overvaluation of assets, the following scheme of reconstruction was finalised:

- (i) Preference shareholders will surrender their 20% shares and they have been allotted 9% (new) preference shares for the remaining amount.
- (ii) Debentureholders having charge on plant and machinery would accept plant and machinery in full settlement.
- (iii) Trade creditors accepted to take over the stock upto the value of ₹6,20,000.
- (iv) Equity shareholders are to accept reduction of  $\mathcal{F}4$  per share.
- (v) Investment is to be valued at market price i.e.,  $\neq 60,000$ .
- (vi) Sundry debtors and remaining stock is to be valued at 90% of their book value.
- (vii) Directors have to forgo their loan in full.
- (viii) Patents and Copyright and Goodwill have no more value.

It was decided to reconstruct the company for which necessary resolution was passed and sanctions were obtained from the appropriate authorities. Accordingly, it was decided that:

- (i) Each share be sub-divided into 10 fully paid up equity share of ₹10 each.
- (ii) After sub-division, each shareholder shall surrender to the company 50% of his holding for the purpose of reissue to debentureholders and creditors as necessary.
- (iii) Out of shares surrendered 10,000<sup>\*</sup> shares of ₹ 10 each shall be converted into 10% Preference shares of ₹ 10 each fully paid up.
- (iv) The claims of the debentureholders shall be reduced by 50%. In consideration of the reduction, the debentureholder shall receive Preference Shares of ₹ 1,00,000 which are converted out of shares surrendered.
- (v) Creditors claim shall be reduced by 25%. Remaining creditors are to be settled by the issue of equity shares of ₹10 each of out of shares surrendered.
- (vi) Balance of Profit and Loss account to be written off.
- (vii) The shares surrendered and not re-issued shall be cancelled.

Pass Journal Entries giving effect to the above and the resultant Balance Sheet.

The following scheme of internal reconstruction was framed, approved by the Court, all the concerned parties and implemented:

(i) The preference shares to be written down to ₹25 each and the equity shares to ₹20 each. Each class of shares then to be converted into shares of ₹100 each.

- (ii) The debenture holders to take over freehold property (book value ₹ 2,00,000) at a valuation of ₹ 2,50,000 in part repayment of their holdings. Remaining freehold property to be revalued at ₹ 6,00,000.
- (iii) Loan from directors to be waived off in full.
- (iv) Stock of ₹50,000 to be written off, ₹12,500 to be provided for bad debts.
- (v) Profit and Loss account balance, Trademark, goodwill and deferred revenue expenditure to be written off.

Pass Journal Entries for all the above mentioned transactions. Also Prepare Capital Reduction account and company's Balance Sheet immediately after reconstruction.

No Dividend on Preference Shares has been paid for last 5 Years.

The following scheme of reorganisation was duly approved by the Court:

- (i) Each equity share to be reduced to  $\gtrless 25$ .
- (ii) Each existing Preference Share to be reduced to ₹75 and then exchanged for one new 13% Preference Share of ₹50 each and one Equity Share of ₹25 each.
- (iii) Preference Shareholders have forgone their right for dividend for four years. One year's dividend at the old rate is however, payable to them in fully paid equity shares of ₹25.
- (iv) The Debenture Holders be given the option to either accept 90% of their claims in cash or to convert their claims in full into new 13 % Preference Shares of ₹50 each issued at par. One-fourth (in value) of the Debenture Holders accepted Preference Shares for their claims. The rest were paid in cash.
- (v) Contingent Liability of ₹ 2,00,000 is payable which has been created by wrong action of one Director. He has agreed to compensate this loss out of the loan given by the Director

to the Company.

- (vi) Goodwill does not have any value in the present. Decrease the value of Plant & Machinery, Stock and Debtors by ₹ 3,00,000; ₹ 1,00,000 and ₹ 2,00,000 respectively. Increase the value of Land & Building to ₹ 25,00,000.
- (vii) 50,000 new Equity Shares of ₹ 25 each are to be issued at par payable in full on application. The issue was underwritten for a commission of 4%. Shares were fully taken up.
- (viii) Total expenses incurred by the Company in connection with the Scheme excluding underwriting Commission amounted to ₹ 20,000.

Pass necessary Journal Entries to record the above transactions. (16 Marks, November, 2014)

All the shares were of  $\mathcal{T}$ 10 each,  $\mathcal{T}$ 8 per share paid up. Show the amount to be realised from the various persons listed above ignoring expenses and remuneration to liquidator etc.

(b) The position of Valueless Ltd. on its liquidation is as under:

Issued and paid up Capital:

- 3,000 11% preference shares of ₹100 each fully paid.
- 3,000 Equity shares of ₹100 each fully paid.
- 1,000 Equity shares of ₹50 each ₹30 per share paid.

Calls in Arrears are  $\gtrless$  10,000 and Calls received in Advance  $\gtrless$  5,000. Preference Dividends are in arrears for one year. Amount left with the liquidator after discharging all liabilities is  $\gtrless$  4,13,000. Articles of Association of the company provide for payment of preference dividend arrears in priority to return of equity capital. You are required to prepare the Liquidators final statement of account. (8 + 8 = 16 Marks, November 2004)(PE-II)

Number of equivalent equity shares:

3,000 shares of ₹ 100 each = 6,000 shares of ₹ 50 each

1,000 shares of ₹ 50 each = 1,000 shares of ₹ 50 each

= 7,000 shares of ₹ 50 each

Final payment to equity shareholders = Total number of equivalent equity shares

= ₹ 1,05,000 / 7,000 shares = ₹ 15 per share to equity shareholders of ₹ 50 each.

Therefore for equity shareholders of ₹ 100 each  $\left(15 \times \frac{100}{50}\right)$ 

= ₹ 30 per share to equity shareholders of ₹ 100 each.

Calls in advance must be paid first, so as to pay the shareholders on pro rata basis. Equity shareholders of ₹ 50 each have to pay ₹ 20 and receive ₹ 15 each. As a result, they are required to pay net ₹ 5 per share.

# **Question 2**

What is B list contributories?

(4 Marks, November, 2008)(PCC)

#### Answer

B list contributories are the shareholders who had transferred partly paid shares (otherwise than by operation of law or by death) within one year, prior to the date of winding up. They may be called upon to pay an amount (not exceeding the amount not called up when the

shares were transferred) to pay off such creditors, as had existed on the date of transfer of such shares and cannot be paid out of the funds otherwise available with the liquidator, provided also that the existing shareholders have also failed to pay the amount due on such partly paid shares.

# **Question 3**

From the data relating to a company which went into voluntary liquidation, you are required to prepare the liquidator's Final Statement of Account.

- (i) Cash with liquidators (after all assets are realised and secured creditors and debentureholders are paid) is ₹7,50,000.
- (ii) Preferential creditors to be paid ₹ 35,000.
- (iii) Other unsecured creditors ₹2,30,000.
- (iv) 5,000, 10% preference shares of ₹100 each fully paid.
- (v) 3,000 equity shares of ₹100 each, ₹75 per share paid up.
- (vi) 7,000 equity shares of ₹100 each, ₹60 per share paid up.
- (vii) Liquidator's remuneration is 2% on payments to preferential and other unsecured creditors

## Answer

# **Calculation of Preferential Creditors**

|   | ₹             |
|---|---------------|
| Tax deducted at source on salaries                          | 1,000         |
| Wages (15 men for 4 months at ₹ 100 each)                   | 6,000         |
| Salaries ( 5 men for 4 months at ₹ 300 each) (Refer Note 1) | 6,000         |
| Workmen's compensation                                      | 5,000         |
| Total   | <u>18,000</u> |

\* Surplus available

= ₹ 8,07,000 - ₹ 1,800 - ₹ 2,36,900 - ₹ 2,09,950 - ₹ 1,850 - ₹ 20,000 - ₹ 11,250 = ₹ 3,25,250.

Mortgage loan was secured against Land & Building. Debentures were secured by a floating charge on all assets. The company was unable to meet the payments and therefore the debentureholders appointed a Receiver for the debentureholders. He brought the Land & Buildings to auction and realized ₹1,60,000. He also took charge of Sundry Assets of value of ₹2,36,000 and realized ₹2,00,000. The Bank overdraft was secured by personal guarantee of the directors of the company and on the Bank raising a demand, the Directors paid off the due from their personal resources. Costs incurred by the Receiver were ₹1,950 and by the

# 5 Financial Statements of Insurance Companies

#### **Question 1**

The Life Insurance Fund of an Insurance Company was on  $31.3.2004 \notin 60$  lakhs before providing for dividend of  $\notin 20,000$  for the year 2003-2004. While ascertaining the above fund figure, the following items were omitted:

- (i) Interest received on investments ₹63,000 after deduction of tax at source 10%.
- (ii) Bonus utilized for reduction of premium ₹14,000.
- (iii) Death claim intimated, but not yet admitted ₹36,000.
- (iv) Death claim covered under re-insurance ₹12,000.
- (v) Consideration for annuities granted ₹9,000.

Interim bonus for the valuation period paid was ₹80,000.

Net liabilities as per valuation was  $\mathbf{\mathcal{T}}$  50 lakhs. It is now proposed to carry forward  $\mathbf{\mathcal{T}}$  2,70,000.

The company declared a reversionary bonus of  $\mathcal{F}$  12 per  $\mathcal{F}$  1,000 and gave the policyholders an option to get the bonus in cash for  $\mathcal{F}$  5 per  $\mathcal{F}$  1,000. Total business of the company is  $\mathcal{F}$  15 crores, 40% of the policyholders decided to get bonus in cash.

#### Prepare:

- (i) Valuation Balance Sheet as on 31.3.2004.
- (ii) Distribution Statement showing the amount due to the policyholders.

Also give Journal Entries relating to reversionary bonus. (10 Marks, November 2004)(PE-II)

## **Question 2**

Write a short note on Reserve for Unexpired Risks in an Insurance Company.

(4 Marks, November 2004) (PE-II)

#### Answer

In most cases policies are renewed annually except in some cases where policies are issued for a shorter period. Since insurers close their accounts on a particular date, not all risks under policies expire on that date. Many policies extend into the following year during which the risk continues. Therefore on the closing date, there is unexpired liability under various policies which may occur during the remaining term of the policy beyond the year and therefore, a provision for unexpired risks is made at normally 50% in case of Fire Insurance and 100% of in case of Marine Insurance. This reserve is based on the net premium income earned by the insurance company during the year

<u>Note:</u> This question is not in accordance with Insurance Regulatory Development Authority Regulations, 2002.

#### **Question 8**

Briefly explain "Reserve for Unexpired Risks" under General Insurance Business. What are the percentages of such reserve to be created under IRDA Act for various General Insurance businesses? (2 Marks, May, 2010) (IPCC)

#### Answer

The need for unexpired risks reserve arises from the fact that all policies are renewed annually except in specific cases where short period policies are issued. Since the insurers close their accounts on a particular date, not all risks under policies expire on that date. Many policies normally extend beyond this date into the following year during which risks continue. In other words, at the closing date, there is unexpired liability under various policies, which may occur during the remaining term of the policy beyond the year end. According to the requirements of the Insurance Act, it is sufficient if the provision is made for unexpired risks at 50 per cent for Fire, Marine Cargo and Miscellaneous business except for Marine Hull which has to be 100 per cent.

#### **Question 9**

From the following information furnished to you by Ayushman Insurance Co. Ltd., you are required to pass Journal entries relating to unexpired risk reserve and show in columnar form "Unexpired Risks Reserve Account" for 2011.

- (a) On 31.12.2010, it had reserve for unexpired risks amounting to ₹40 crores. It comprised of ₹15 crores in respect of marine insurance business, ₹20 crores in respect of fire insurance business and ₹5 crores in respect of miscellaneous insurance business.
- (b) Ayushman Insurance Co. Ltd. creates reserves at 100% of net premium income in respect of marine insurance policies and at 50% of net premium income in respect of fire and miscellaneous income policies.
- (c) During 2011, the following business was conducted:

|   |        | ( <i>₹</i> in crores)<br>ne Fire Miscellaneous |       |  |

#### **Question 15**

Explain in short, the following principles and term of insurance business:

- (i) Principle of Indemnity;
- (ii) Insurable interest;
- (iii) Principle of "UBERRIMAE FIDEI".
- (iv) Catastrophic Loss

(4 Marks, November 2013) (IPCC)

#### Answer

- (i) **Principle of indemnity:** Insurance is a contract of indemnity. The insurer is called indemnifier and the insured is the indemnified. In a contract of indemnity, only those who suffer loss are compensated to the extent of actual loss suffered by them. One cannot make profit by insuring his risks.
- (ii) Insurable interest: All and sundry cannot enter into contracts of insurance. For example, A cannot insure the life of B who is a total stranger. But if B. happens to be his wife or his debtor or business manager, A has insurable interest i.e. vested interest and therefore he can insure the life of B. For every type of policy insurable interest is insisted upon. In the absence of such interest the contract will amount to a wagering contract.

#### 5.19 Advanced Accounting

- (iii) Principle of UBERRIMAE FIDEI: Under ordinary law of contract there is no positive duty to tell the whole truth in relation to the subject-matter of the contract. There is only the negative obligation to tell nothing but the truth. In a contract of insurance, however there is an implied condition that each party must disclose every material fact known to him. All contracts of insurance are contracts of uberrima fidei, i.e., contracts of utmost good faith. This is because the assessment of the risk and the determination of the premium by the insurer depend on the full and frank disclosure of all material facts in the proposal form.
- (iv) Catastrophic Loss: A loss (or related losses) which is unbearable i.e. it causes severe consequences such as bankruptcy to a family, organization, or insurer.

| Doubtful upto one year         | 900         |
| Doubtful upto three years      | 400         |
| Doubtful more than three years | 300         |
| Loss Assets                    | 500         |

(4 Marks, November 2004) (PE- II)

#### Answer

#### Computation of provision in the Profit & Loss Account of the Commercial Bank:

| Assets                          | Amount       | % of Provision | Provision        |
|---------------------------------|--------------|----------------|------------------|
|                                 | (₹ in lakhs) |                | (₹ in lakhs)     |
| Standard                        | 4,000        | 0.40           | 16               |
| Sub-standard*                   | 2,000        | 15             | 300              |
| Doubtful upto one year*         | 900          | 25             | 225              |
| Doubtful upto three years*      | 400          | 40             | 160              |
| Doubtful more than three years* | 300          | 100            | 300              |
| Loss                            | 500          | 100            | <u>    500  </u> |
|                                 |              |                | <u>1,501</u>     |

\* Sub-standard and doubtful assets are assumed as fully secured as it is logical for a commercial bank to cover itself by adequate security in the making of loans and advances in the ordinary course of business.

#### **Question 9**

What is the percentage of NPA provision to be made by banks in respect of fully secured doubtful advances of more than 3 years old? (2 Marks, November, 2007) (PCC)

#### Answer

In case of Banking Companies, 100% NPA provision is made in respect of fully secured doubtful advances of more than 3 years. This provision is made irrespective of whether the advance is fully / partly secured or unsecured. However, in the case of government guaranteed advances this rate of provision will not apply.

#### **Question 10**

A loan outstanding of ₹ 50,00,000 has DICGC cover. The loan guaranteed by DICGC is assigned a risk weight of 50%. What is the value of Risk-adjusted asset?

(2 Marks, (May, 2008) (PCC)

#### Answer

| Loan outstanding                                 | ₹ 50,00,000 |
|--|-------------|
| Guaranteed by DICGC – Risk weight                | 50%         |
| Value of risk adjusted asset ₹ 50,00,000 × 50% = | ₹ 25,00,000 |

#### 2. Calculation of Tax

Tax = 35% of [Total income – Total expenditure (excluding tax)]. Tax = 35% of [44,15,000 + 1,25,000 – (13,60,000 + 13,31,000 + 5,90,250)] Tax = ₹ 4,40,563

#### 3. Total amount of provisions and contingencies

= Provision for NPA + Provision for Tax = 5,90,250 + 4,40,563 = ₹ 10,30,813

#### **Question 14**

Mention the condition when a cash credit overdraft account is treated as 'out of order'.

(2 Marks, May, 2010) (IPCC)

#### Answer

A cash credit overdraft account is treated as NPA if it remains out of order for a period of more than 90 days. An account is treated as 'out of order' if any of the following conditions is satisfied:

- (a) The outstanding balance remains continuously in excess of the sanctioned limit/drawing power.
- (b) Though the outstanding balance is less than the sanctioned limit/drawing power -
  - (i) there are no credits continuously for more than 90 days as on the date of balance sheet; or
  - (ii) credits during the aforesaid period are not enough to cover the interest debited during the same period.

#### **Risk Weighted Assets Ratio:**

Capital fund ×100

Risk adjusted assets

(839.2/ 11,393.50) x 100 =7.37%

At present, capital adequacy ratio as per RBI norms is 9%. Therefore, Bank has to improve the ratio by introducing further Tier I capital.

**Note:** As per RBI Master Guidelines dated 1st July 2013, Revaluation Reserves have been advised to be discounted by 55%

#### **Question 20**

The following particulars are extracted from the records of M/s. Engco Bank Limited for the year ended 31<sup>st</sup> March, 2012:

|   | Amount (₹) |
|---|------------|
| Rebate on bills discounted (not due on March 31 <sup>st</sup> , 2011) | 60,610     |
| Discount received   | 6,10,800   |
| Bills discounted  | 24,42,250  |

<sup>\*\* 25%</sup> of investments classified as 'held for maturity' need not be marked to market as per RBI Guidelines. However, the remaining 75% investments have been marked to market according to RBI Guidelines.

An analysis of the bills discounted is a follows:

| Amount (₹) | Due Date       |
|------------|----------------|
| 3,75,000   | April 15, 2012 |
| 4,90,000   | May 6, 2012    |
| 2,45,000   | June 1, 2012   |
| 3,68,000   | June 20, 2012  |
| 4,85,000   | July 4, 2012   |

The rate of discount is 12% per annum. You are required to :

- (i) Calculate rebate on bills discounted as on 31<sup>st</sup> March, 2012.
- (ii) Determine the amount of discount to be credited to the profit and loss account for the year ended 31<sup>st</sup> March, 2012.
- (iii) Show the necessary journal entries in the books of M/s. Engco Bank Ltd. as on 31<sup>st</sup> March, 2012. (8 Marks, November, 2011) (IPCC)

#### Answer

(i) Calculation of Rebate on Bills Discounted as on 31<sup>st</sup> March, 2012

| Amount (₹) | Due date       | No. of days from<br>31 <sup>st</sup> March, 2012<br>to due date | Product      |
|------------|----------------|---|--------------|
| 3,75,000   | April 15, 2012 | 15  | 56,25,000    |
| 4,90,000   | May 06, 2012   | 36  | 1,76,40,000  |
| 2,45,000   | June 01, 2012  | 62  | 1,51,90,000  |
| 3,68,000   | June 20, 2012  | 81  | 2,98,08,000  |
| 4,85,000   | July 04, 2012  | 95  | 4,60,75,000  |
| 19,63,000  |                |   | 11,43,38,000 |

Amount of rebate on bills = ₹ 11,43,38,000 × 12% × 1/365 = ₹ 37,591 (approx.)

Note: One can also calculate rebate on each bill individually.

(ii) Determination of amount of discount to be credited to the Profit and Loss Account for the year ended 31<sup>st</sup> March, 2012

|   | ₹               |

#### **Risk Weighted Assets Ratio:**

Capital Fund x 100 Risk Adjusted Assets = (726.10 / 11,183) x 100 = 6.49%

At present, capital adequacy ratio as per RBI norms is 9%. Therefore, Bank has to improve the ratio by introducing further Tier – I capital or by reducing risk adjusted assets.

| Stock of J department         | <u>20,000</u> |

Proportion of stock of I department = ₹ 20,000 ×  $\frac{₹ 30,000}{₹ 60,000}$  = ₹ 10,000

Stock reserve =₹ 10,000 ×  $\frac{20}{120}$  = ₹ 1,667 (approx.)

Stock reserve of K department

|   | ₹              |

| Cost to J department                                    | 4,000          |

Proportion of stock of I department = ₹ 4,000 ×  $\frac{₹ 30,000}{₹ 60,000}$  = ₹ 2,000

Stock reserve = 2,000 ×  $\frac{20}{120}$  = ₹ 333 (approx.)

Total stock reserve = ₹ 1,000 + ₹ 333 = ₹ 1,333

#### **Question 2**

Goods are transferred from Department P to Department Q at a price 50% above cost. If closing stock of Department Q is  $\gtrless$  27,000, compute the amount of stock reserve.

(2 Marks, November, 2009)(IPCC)

#### Answer

#### **Calculation of Stock Reserve**

|   | ₹      |
|---|--------|
| Closing stock of Department Q   | 27,000 |
| Goods sent by Department P to Department Q at a price 50% above cost                                    |        |
| Hence, profit of Department P included in the stock will be $\left(\frac{27,000 \times 50}{150}\right)$ | 9,000  |
| Amount of stock reserve will be ₹ 9,000   |        |

#### **Question 3**

Department R sells goods to Department S at a profit of 25% on cost and Department T at 10% profit on cost. Department S sells goods to R and T at a profit of 15% and 20% on sales respectively. Department T charges 20% and 25% profit on cost to Department R and S respectively.

Department managers are entitled to 10% commission on net profit subject to unrealized profit on departmental sales being eliminated. Departmental profits after charging manager's commission, but before adjustment of unrealized profit are as under:

|            |   | え      |

#### Working Notes:

#### (1) Profit Margin Ratio

| Selling price of units purchased: |                       |          |  |  |  |
|-----------------------------------|-----------------------|----------|--|--|--|
| Department A                      | (5,000 units x ₹ 40)  | 2,00,000 |  |  |  |
| Department B                      | (10,000 units x ₹ 45) | 4,50,000 |  |  |  |
| Department C                      | (15,000 units x ₹ 50) | 7,50,000 |  |  |  |
| Total selling price of            | 14,00,000             |          |  |  |  |
| Less: Purchases                   | <u>(8,40,000)</u>     |          |  |  |  |
| Gross profit                      | 5,60,000              |          |  |  |  |
|                                   |                       |          |  |  |  |

Profit margin ratio =  $\frac{\text{Gross profit}}{\text{Selling price}} \times 100 = \frac{5,60,000}{14,00,000} \times 100 = 40\%$ 

#### (2) Statement showing department-wise per unit cost and purchase cost

Working Note:

#### **Calculation of Stock Reserve**

Rate of Gross Profit of Cloth Department, for the year  $2010-11 = \frac{\text{Gross Profit}}{\text{Total Sales}} \times 100$ 

Closing Stock of cloth in Readymade Clothes Department = 75%

i.e. ₹ 6,72,000 x 75% = ₹ 5,04,000

Stock Reserve required for unrealized profit @ 16% on closing stock

₹ 5,04,000 x 16% = ₹ 80,640

Stock reserve for unrealized profit included in opening stock of readymade clothes @ 15% i.e.

(₹ 5,32,000 x 75% x 15%) = ₹ 59,850

Additional Stock Reserve required during the year = ₹ 80,640 – ₹ 59,850 = ₹ 20,790.

#### **Question 6**

Department A sells goods to Department B at a profit of 20% on cost and Department C at 15% profit on cost. Department B sells goods to A and C at a profit of 10% and 20% on sales respectively. Department C sells goods to A and B at 15% and 10% profit on cost respectively.

Departmental managers are entitled to 10% commission on net profit subject to unrealized profit on departmental sales being eliminated. Departmental profits after charging manager's commission, but before adjustment of unrealized profit are as under:

Ŧ

|              | ſ      |

#### Calculation of unrealized profit of each department and total unrealized profit

#### **Question 8**

Martis Ltd. has several departments. Goods supplied to each department are debited to a Memorandum Departmental Stock Account at cost, plus a fixed percentage (mark-up) to give the normal selling price. The mark-up is credited to a memorandum departmental 'Mark-up account', any reduction in selling prices (mark-down) will require adjustment in the stock account and in mark-up account. The mark up for Department A for the last three years has been 25%. Figures relevant to Department A for the year ended 31<sup>st</sup> March, 2013 were as follows:

| Opening stock as on 1 <sup>st</sup> April, 2012, at cost | ₹ 65,000  |
|--|-----------|
| Purchase at cost   | ₹2,00,000 |
| Sales  | ₹3,00,000 |

It is further ascertained that :

- (1) Shortage of stock found in the year ending 31.03.2013, costing ₹1,000 were written off.
- (2) Opening stock on 01.04.12 including goods costing ₹ 6,000 had been sold during the year and bad been marked down in the selling price by ₹ 600. The remaining stock had been sold during the year.
- (3) Goods purchased during the year were marked down by ₹ 1,200 from a cost of ₹15,000. Marked-down stock costing ₹5,000 remained unsold on 31.03.13.
- (4) The departmental closing stock is to be valued at cost subject to adjustment for mark-up

#### **Question 2**

*M/s* Shah commenced business on 1.4.2004 with Head Office at Mumbai and a Branch at Chennai. Purchases were made exclusively by the Head Office, where the goods were processed before sale. There was no loss or wastage in processing.

Only the processed goods received from Head Office were handled by the Branch. The goods were sent to branch at processed cost plus 10%.

All sales, whether by Head Office or by the Branch, were at uniform gross profit of 25% on their respective cost.

Following is the Trial Balance as on 31.3.2005.

#### Nagpur Branch Adjustment Account

\*Balancing figure.

#### Working Notes:

- Credit Sales have not been given in the problem. So, the balancing figure of Branch Debtors Account is taken as credit sales
- 2. Loading is  $33 \frac{1}{3}$  % of Cost; i.e. 25% of invoice value

Loading on opening stock =  $24,000 \times 25\%$  = 6,000

- 3. Loading on goods sent = 4,80,000 × 25% = ₹1,20,000
- 4. Loading on Closing Stock = ₹48,000 × 25% = ₹12,000
- 5. Total Branch Expenses = Cash expenses + Bad debt + Discount allowed

6. Gross Profit

Total sales (at invoice price) - Goods returned by customers (at invoice price) x  $\frac{33.33}{100+33.33}$ 

{(₹ 1,80,000+ ₹ 2,80,000)- ₹ 6,000} x  $\frac{33.33}{133.33}$  = ₹ 1,13,500

#### **Question 4**

Alphs having head office in Mumbai has a branch in Nagpur. The branch at Nagpur is an independent branch maintaining separate books of account. On 31.3.2007, it was found that the goods dispatched by head office for  $\notin$  2,00,000 was received by the branch only to the extent of  $\notin$  1,50,000. The balance goods are in transit. What is the accounting entry to be passed by the branch for recording the goods in transit, in its books?

(2 Marks, May, 2007)(PCC)

#### 8.8 Advanced Accounting

#### Answer

Nagpur branch must include the inventory in its books as goods in transit.

| The following journal entry must be made by the branch: |            |                      |  |  |  |
|---|------------|----------------------|--|--|--|
| Goods in transit A/c                                    | Dr.        | 50,000               |  |  |  |
| To Head office A/c                                      |            | 50,000               |  |  |  |
| [Being Goods sent by Head office is still               | in transit | on the closing date] |  |  |  |

#### **Question 5**

Beta having head office at Mumbai has a branch at Nagpur. The head office does wholesale trade only at cost plus 80%. The goods are sent to branch at the wholesale price viz., cost plus 80%. The branch at Nagpur is wholly engaged in retail trade and the goods are sold at cost to H.O. plus 100%.

#### **Question 13**

Why goods are marked on invoice price by the head office while sending goods to the branch? (4 Marks, May, 2011) (IPCC)

#### Answer

Goods are marked on invoice price to achieve the following objectives:

- (i) To keep secret from the branch manager, the cost price of the goods and profit made, so that the branch manager may not start a rival and competitive business with the concern; and
- (ii) To have effective control on stock i.e stock at any time must be equal to opening stock plus goods received from head office minus sales made at branch.
- (iii) To dictate pricing policy to its branches, as well as save work at branch because prices have already been decided.

#### **Question 14**

Global has a branch which closes its books of account every year on 31<sup>st</sup> March. This is an independent branch which maintains comprehensive books of account for recording their transactions.

You are required to show journal entries in the books of branch on 31<sup>st</sup> March, 2011 to rectify or adjust the following:

- (i) Head Office allocates ₹ 1,35,000 to the branch as head office expenses, which have not yet been recorded by branch.
- (ii) Depreciation of branch fixed assets, whose accounts are kept by head office in its books, not yet recorded in the branch books, ₹1,15,000.
- (iii) Branch paid ₹ 1,40,000 as salary to an official from head office on visit to branch and debited the amount to its Salaries Account.
- (iv) Head Office collected ₹ 1,30,000 directly from a branch customer on behalf of the branch, but no intimation was received earlier by the branch. Now the branch learns about it.
- (v) It is learnt that a remittance of ₹ 1,50,000 sent by the branch has not been received by head office till date.
